DARING DEED.

A Bold Train Robbery Frustrated.

Brave Engineer Holmes Did It,

And for His Interference He is Shot.

One of the Robbers Caught and Then Released Through the Stupidness of One of His Captors.

SPRINGFIELD, Ill., May 2—The Chicago and Alton passenger train, due here at 12 30 a m, was boarded by robbers at Carlinville. At a place one half mile north of there the bandits attacked the trainmen and ordered them to hold up their hands. The engineer and fireman refused and a desperate fight began. Six shots were fired and Engineer Holmes was killed

The men wore no masks, but one of them had a gunnysack wrapped about his body. This was the man who shot the engineer and when the three men leaped from the engine he was caught by one of the mail carriers and held. Trainmen and passengers pursued the other two men and overtook and brought them back. The train was then backed down to the depot by the fireman and the prisoners handed over to the authorities.

CHICAGO, May 2—Officials of the Alton road deny emphatically today that there was any attempt to hold up the train at Carlinville last night when Engineer Frank Holmes was shot and killed. The shooting, they say, was done by tramps. John J. Mitchell, of St. Louis, a director of the road, who was on the train, said today:

"It is absurd to talk of a train robbery in connection with that affair. The three tramps simply intended to take possession of the tender and ride free. They climbed aboard and Engineer Holmes ordered them off. When they refused to leave he picked up a piece of coal to throw, when one of the men fired with fatal result. There was evidently no intention on the part of the men to attempt robbery."

The officials of the road think they have the murderer of Holmes in the man who was caught as he was leaving the tender. He is smooth shaven and, while the fireman is not able to positively identify him, he says that the man who did the shooting was beardless. The supposed murderer was hatless when captured, and a hat that fits him was found on the tender. The real name of the tramps are now known to the authorities

A DESPERATE AFFAIR

CHICAGO, May 2—The hold-up of the Chicago and Alton northbound lightning express last night, near Carlinville, Ill, appears to have been a much more desperate affair than at first reported. Immediately upon the arrival of the train in Chicago today a reporter of the Associated Press interviewed Mail Clerk J. P. Kevors, who was aboard at the time of the attack. Mr. Kevors said:

"The train was Chicago and Alton No. 3, out of St. Louis at 8:55 last evening It was held up by armed robbers at Carlinville, just before midnight, and in a plucky fight with the robbers Engineer Frank Holmes laid down his life. Carlinville is fifty-seven miles from St Louis, and train No. 3, Conductor Conlin and Engineer Holmes, left there on schedule time, 11:14, and began the run to Brighton, the next regular stopping place. Hardly had the train got under way when two tramps lying flat on the coal in the tender were startled by the appearance of two masked men, who came crawling over the tender. Poking two big revolvers into the faces of the tramps, the new comers enjoined them to silence and strict attention to their own business Passing on to the engine cap, one of the armed men ordered the two firemen—one man extra, learning the road—to put up their hands while the other covered the engineer and ordered him to shut off steam. The engineer complied and then the desperado ordered him to give her a full head and be lively about it. Holmes made a pretense of doing so, and the robber apparently satisfied, stepped back a foot or two. Engineer Holmes was on the alert for the opportunity presented and seizing the fireman's pick, used in breaking coal, he dealt the robber two quick, glancing blows on the head Both robbers at once opened fire and plucky Frank Holmes fell dead in the gangway of his engine, with at least three bullet holes in his breast. The fireman shut off steam and put on the air, and the heavy train slowed down to a standstill. As it did so the two robbers swung off. A number of men had been riding on the rear platform of the mail car and at the first report two of the mail clerks, working at the letter case, heard one of them exclaim:

"They are shooting; let us get off"

Jumping off, they realized that their plans had miscarried. After a moment of decision, they started to flee. The mail clerks, who had at first supposed that the firing was done by a brakeman as a menace to debunt tramps, heard the fireman shouting:

"Frank Holmes is shot dead."

Mail Clerk John H Conefrey and Baggageman J. C. Logan, who were in charge of the weighing of mails for the government and railroad company respectively, hastened to their grips in which lay their Smith & Wesson revolvers, and jumping from the mail car, proceeded to assist the trainmen in their search for the slayers of Frank Holmes.

Hurrying around the engine, Logan stumbled over a man lying prone in the grass and commanded him to rise. Reluctantly complying the man protested earnestly against arrest and claimed to be in no way connected with the trouble Conefrey pushed on and came upon a man with a repeating rifle and a belt full of cartridges. His back was turned and Conefrey covered him and ordered him to come along The man demurred strongly, claiming he had been on a hunting expedition. Conefrey refused to parley and getting his revolver in a line with the suspect's heart, convinced him that he had an earnest man to deal with Logan and Conefrey turned their men over to Conductor Conlin and the passengers who had come forward, Conlin in the meantime having secured the two tramps who had been on the tender.

The man with the rifle put up so convincing a story to account for his presence, that Conlin was persuaded of his innocence and permitted him to go, an action which the conductor strongly regretted when his emotion over the killing of his old friend Holmes had subsided. The passengers and others believe Conlin made a serious mistake. The man with the Winchester was a counterfeit of the ideal desperado in appearance and attire. The three men detained were turned over to a deputy sheriff when the train backed down to Carlinville, a mile away.

Train No. 3 is said to carry at times large sums of money and the object of the bandits was probably to loot the express car, believing that their success would compensate for the desperate chances taken in robbing the train. Chief Agent Kane, of the Chicago and Alton, one of the best railroad detectives in the country, is on the scene and prosecuting a vigorous search for the robbers.

VANDERBILT'S SCHEME.

He Wants the Great Northern and Will Get It.

Will Then Have a Line of His Own From New York City to Puget Sound.

ST. PAUL, Minn., May 2—The Dispatch this afternoon says. "If rumor be true and the object which called President J. J. Hill to London so hurriedly be not successfully accomplished Mr Hill may then have sufficient time on his hands to attend to the Northern Pacific, with which his name has been recently connected Mr Hill's control of the Great Northern system comes through the consolidation of his own and Sir Donald Smith's interest in that property. The latter represents all the Montreal interest in the road Sir Donald has backed Mr. Hill in bringing about the realization of his transcontinental dreams. As long as Mr. Hill was able to keep the support of Sir Donald Smith he was able to swing the road across according to his ideas Once Mr. Hill was attacked in that quarter, when the late Allen Marvel was vice-president of the road, but Hill came out victorious. Through the same interest Mr. Hill is again attacked and it is stated that he felt the effects so much that he hurried off to Europe to endeavor to recover before it is too late. It is openly stated that the Vanderbilts, appreciating the value of the Great Northern, have secured a hold upon these Canadian holdings and are preparing at the annual meeting in September to relieve Mr. Hill of the control of the system. When Mr. Hill went to New York so hastily he paid a hurried visit to Montreal, where Sir Donald Smith resides, and immediately afterwards took a steamer abroad. The Vanderbilts now control the New York Central, Lake Shore, Michigan Central, Northwestern, Omaha and Elkhorn lines. Their connections is through an ironclad agreement with the Union Pacific. If the Vanderbilts can secure control of the Great Northern they will have a line of their own to Puget Sound from New York, which will interfere materially with the southern route, via the Union Pacific. The Great Northern needs money and can cut no further in pay rolls. Traffic has reached its minimum and hard times have had their effect so that there is every ground for believing that the Vanderbilts, if it is true that they are seeking the control of the line, are in a better position to secure their ends now than they would have been five years ago or will be ten years hence."

Violently Insane.

NEW YORK, May 2—E. Bardo Elliot, of Maywood, a suburb of Chicago, became violently insane at the Ashland house last night, and was today taken to Bellevue hospital.

French is the language of diplomacy the world over, yet it is said there is only one person in the administration circles at Washington who can speak it with the members of the various diplomatic corps That person is Miss Morton, sister of the secretary of agriculture. This is a sufficient illustration of the disgraceful ignorance of even educated Americans in the linguistic field

George Harley, a Springfield (O.) foundryman, claims to have discovered a process for making malleable iron which will render it so cheap as to revolutionize the whole process of iron manufacture. Harley's process does away with the expensive annealing.

DEATH AND DESOLATION

Follow in the Wake of a Western Cyclone.

Fifteen or Twenty Persons Crushed by the Falling Walls of Their Houses and Barns.

HUTCHINSON, Kan, May 2—Seldom is such wreck and ruin crowded into such a brief space of time as was the result of a cyclone in the farming district twenty miles east of this city yesterday afternoon About 1 20 p m, a twisting, hurling cloud was seen to approach Patterson, a small station on the Frisco road, about six miles southwest of Burrton The air was dry and filled with electricity. Those who saw it say it resembled a great mass of flying smoke and dust from a prairie fire The air was as it came from a heated furnace, hot and stifling. The storm struck about a mile of Patterson, and for sixteen miles in a northwesterly direction left death and ruin in a path 100 yards to a quarter of a mile in width. Eight persons were killed, as follows:

Mrs. Joseph Wear.
Grace Wear, twelve years old.
Herman Wear, ten years old.
A babe
John Schmidt
Miss Schmidt.
Dora Schmidt.
Frank Schmidt.

More than twenty persons were injured, among them being the

Widow Frye, internally, cannot recover.
Joseph Wear, will die
Mrs. J. R Frizzell, fatally injured.
Jacob S. Stinchey, injured on the head
Cyrus Henson, seriously injured
Mrs. William Armstrong

WICHITA, Kas, May 2—Further details of the cyclone near Halstead show that ten persons were killed Besides the six mentioned in last night's dispatches the home of John Schmidt was destroyed and the entire family of four persons, father, mother, son and daughter were killed. Their names are Mr John Schmidt, Mrs. John Schmidt, Dora Schmidt and Franz Schmidt.

NEWTON, Kas, May 2—Further particulars of last night's cyclone in this vicinity report the death list will probably reach fifteen or twenty. Those known to be dead are:

Mrs. A. Chapin.
Joseph Wile, wife and three children.
William Armstrong.
Mrs. Frizzle
Miss Cora Sneff.

There are about as many badly injured. The physicians of surrounding towns have gone to the assistance of the injured. The course of the storm was almost due north and missed Halstead and Mound Ridge by a few miles only. The family of M. E Hege escaped by being in the cellar, while the $4,000 residence above them was completely demolished. Cattle are strewn over the prairies for miles and debris is everywhere. The storm did not raise from the ground and moved with moderate velocity. It demolished ten telegraph poles in crossing the Main line of the Santa Fe. The force of the storm broke north of Mound Ridge. Hundreds of people have turned out from Newton, Halstead and Burriton to assist the injured and to recover the remains of the dead. Several persons are missing and a search is being made for their bodies.

ZELLA'S SUIT.

Files the Papers With the Clerk of the Court.

She Alleges That George J. Gould Has Fraudulently Converted a Bank Certificate to His Own Use.

TRENTON, N. J., May 2—The papers in the case of Rosella Rubman, better known as Zella Nicolaus, against Geo. J. Gould for $40,000, were filed this morning in the office of the clerk of the supreme court of this state. The papers aver that the plaintiff was in possession of a check or deposit certificate of the value of $40 000 and that this certificate, which she afterwards lost in Jersey City, was found by Geo. J. Gould, who has refused to return it, although repeatedly asked to do so. She then charges that Gould has fraudulently converted the certificate to his own use. The petition sets out that the plaintiff is only nineteen years old and a minor and asks that the court appoint Lawyer Alexander Simpson as her next friend, to prosecute the suit. The court grants the request. Gould must file his answer within twenty days from the time the summons was served, The summons was served on Gould at Communipaw last week

DR. PARKHURST.

He Will Spend the Summer in Europe.

NEW YORK, May 2—Dr. Parkhurst will sail for Europe June 5, to be gone until September 20 For several years past his vacations have been spent in Switzerland. This time he will go to Russia "I like," he said last night, "to study new social and economical conditions. Most of Europe is pretty much like America in these conditions, though in Holland one sees some different modes of life In Russia the conditions are entirely distinct I want to study them Mrs Parkhurst and I will go to London, Copenhagen, Stockholm, St Petersburg, Moscow, Vienna and then into Switzerland. That is the country I like best of all in Europe The Alps are grand beyond description We shall stay at Vevoy. I shall be glad to get away from politics and turmoil, yet it always seems good to come home again."

A SECRET SESSION.

Ohio Miners at Work Upon a Knotty Question.

Developments Watched With Great Interest, as the Matter of Cessation of Mining is at Stake.

COLUMBUS, Ohio, May 2—The Ohio Miners' association, by committee, informed the operators that a joint session of operators and miners cannot be held until tomorrow. The miners then went into secret session. They began work early. They are very reticent, more so than at the late conference in January and more so than usual They are divided in opinion upon the question of asking the operators to retain ten cents to go toward the support of certain Pittsburg miners who are striking for terms which would give employment in Ohio, Indiana and Illinois but as heretofore stated, and as repeated again today by the operator's chief spokesman, such retention and use of money would practically amount to illegal conspiracy and cannot be accepted. The situation, therefore, is that unless the miners in the secret session who oppose this effort at alleged conspiracy can prevail upon its friends to recede, times ahead, according to the operators, and especially in the Hocking Valley, present a positive prospect of absolute cessation of mining

PIEDMONT, Va, May 2—This town was placarded last night with notices appealing to the miners here to join the West Virginia strikers, but both of the companies located here are running today, though with a lighter force. Good order prevails No requisition has been made for troops by the companies here. The Southwest Virginia Improvement company, the largest operators in the fields, are maintaining a position of neutrality and working according to the demands of coal. They claim that there is no cause for a strike among their men existing, and they will keep open as long as the men work. A great pressure is being used to bring these miners into the strike and their failure to join is the chief source of conversation in the coal fields Some of the miners here will not enter the mines until there are further developments. The impression prevails that the miners here will finally join or there will be trouble. The N. & S. W. railroad company are removing their employes from the region of the strike to this point. No decided outbreak is feared before Monday, but everything is uncertain The West Virginia miners who came in last evening left on a later train to report the position of the local miners and meetings will be held today to decide what course to pursue Messrs Patrick McBride and Loveless are in the fields assuring the men that aid will be given to all strikers and their families.

KEELEY'S GOLD CURE.

W. F. Johnson Says it Ruined His Health,

And He Brings Suit for $100,000 Against the Doctor—The Doctor Must Divulge His Secret.

LEAVENWORTH, Kas, May 2—Judge Myers, of the district court, has made a very important order affecting the rights of Dr. Leslie E Keeley. W. F. Johnson, of Topeka, sues Dr. Keeley for $100,000 damages, the petition reciting that the plaintiff has been made a physical wreck because of the gold cure. Judge Meyers, in granting petitioner's request, rules that Dr Keeley must make known the ingredients of his bi-chloride of gold compound. The court holds that the cure is not a property right nor guarded secret. It is unprotected by a patent, has been in use more than two years and there is nothing to prevent Dr. Keeley retaining it and that he must tell what it is.

USING BOODLE.

Charges of Bribery in the Illinois Legislature.

ANNA, Ills, May 2—Charges that boodle is being used and that attempts at bribery are being made at Springfield among the legislature are alleged by Representative Peckerill, whose home is in this city. Mr. Peckerill says a money bribe was offered him by a fellow member if he would keep his mouth shut about an alleged attempt to bury in senate committee the bill to regulate and fix the charges of express companies doing business in the state, and to declare all such corporations or companies common carriers

Shaft Acquitted.

SAN FRANCISCO, May 2—Herman Sharf has been acquitted in the United States circuit court of the charge of assisting in the murder of Second Mate Maurice FitzGerald, of the American bark Hesper. He was found guilty on a former trial and the United States supreme court reversed the case Sharf was the only witness to the murder ever placed on the stand and he was cleared on the ground that he and Hanson did not commit the murder or assist therein, but that they threw the body overboard to shield St. Clair and to save the captain's life.

Not Found Yet.

SAN FRANCISCO, May 2—The mystery of the bookkeeper, Chas Smith's disappearance, who vanished on Sunday from the office of McClaughlin & Co, grain brokers, has not yet been unravelled. It is said that his disappearance has some connection with the Fair wheat deal investigation.

HOME AT LAST.

Daniel W. Souder Arrives in the City Safely.

Is Met at the Wabash Depot by His Brother and Taken at Once to His Country Home.

In response to a telegram received here late yesterday afternoon from ex-County Clerk Daniel W Souder, who so mysteriously disappeared over four months ago, notifying him that Mr. Souder was in Detroit, County Clerk Harry M Metzgar left for that city at 9 o'clock, arriving there last night, and later he telegraphed to friends here that he had found Mr Souder at the Wayne hotel in that city He said that Mr. Souder was in a bad condition mentally and physically, that he had sailed from Cape Town, South Africa, on March 20 for London, and from thence to Boston, where he landed on the 27th of April, and yesterday he arrived at Detroit Mr. Metzgar said that he would be at home today with Mr. Souder

The first train today which Mr. Souder could arrive on was the Wabash, which reaches here at 1.15 p m A SENTINEL reporter was therefore in waiting at the depot when the train pulled in. Several other of Mr. Souder's friends were also on hand, as it was generally expected that he would be aboard

Sure enough when the train arrived Mr. Souder and County Clerk Harry Metzgar were among the first passengers to step off the train. The first person to greet Mr Souder was his brother, Rev. Henry Souder, of Bluffton. The meeting between the two men was quite cordial. The next person to shake Mr. Souder's hand was THE SENTINEL reporter.

"How do you do, Mr. Souder? Are you in good health?" said the newspaper man.

"Yes, I am quite well and glad to see you all," answered the traveler.

At this juncture a number of other gentlemen stepped up and the scribe was unable to get in another word. The ex-county clerk was quickly taken across the Pittsburg tracks to the foot of Clinton street by Rev. Souder and J. H Beahler, the insurance man. Here they were met by Martin V. Connett with a carriage and the party were driven up Clinton street. At Holman street Mr. Beahler got out of the buggy. Mr. Souder was driven on out to his home.

Just before Mr. Souder got in the buggy he was again approached by the newspaper men and asked if he had any statement to make to the papers Mr. Souder turned partly round, raised his cane in a threatening manner, and said:

"If it hadn't been for the cursed newspapers I wouldn't be in this condition today."

This was the only expression which could be gotten from him

Harry Metzgar took a hack and was driven off to his home.

Mr. Souder had no trunk but instead carried a large sized valise. He looks in the best of health and was dressed in a plum colored suit and wore a dark, slouch hat

County Clerk Metzgar was met late this afternoon at his office by a SENTINEL reporter, and in reply to questions, said:

"I found Mr. Souder last night in his room in the Wayne hotel, in Detroit, and left with him this morning for Fort Wayne, coming by the way of Toledo, over the Wabash. His mental condition is one that calls for pity, although physically he is in the best of health. He arrived in Boston from London on April 27. I have not the least doubt in the world but that Mr. Souder was at Cape Town, Africa, as his letter home stated He had in his possession a Cape Town newspaper giving his name among the list of arriving passengers at that place. He also had a list of passengers of the departing vessel and his name was among them. At Boston he bought a railroad ticket to St Louis, via Detroit, and the unused portion of this ticket from Detroit to St Lou's, he gave to me. At Detroit he evidently came to his mind, realizing his condition, and telegraphed home. After that he went to his room and remained there until I came He has periods when his mind seems to be clouded and he does not know where he is or what he is doing. A right mind evidently came to him at Cape Town and he determined to start for home, but since then he became unbalanced, and this accounts for his trip to Boston and his purchase of a ticket in that city for St Louis He says he does not know why he left Fort Wayne. His story of his wanderings to me was as follows:

'January 15 last I bought a ticket to Indianapolis. I only went as far as Peru and changed my course to Detroit. From Detroit I went to Montreal and then to Halifax. From Halifax I sailed, January 19, for Liverpool on the steamer Laurentian. I went to London and then sailed for Cape Town, South Africa, on the steamer Dunbar Castle, of the Castle line, Captain Pierce. From Cape Town I went to Johannesberg, the center of the gold fields in Transvaal, the South African republic. I went back again to Cape Town and March 20 last left for my return home"

Wants Peace.

VANCOUVER, B C, May 2—Advices brought by the Empress of China from China states that the emperor of China has sent over 200 bolts of the most valuable silk stuffs to the emperor of Japan as a token of his (the Chinese emperor's) desire for a restoration of peace Over 700 telegrams congratulating the Japanese on the armistice were received from the naval and military officers of various foreign powers up to the third ultimo

FEMALE MURDERER.

Mrs. Larb Shoots Her Stepdaughter, Mrs. MacHenry.

The Ball Passes Through the Body of the Victim and She Sinks Down in the Doorway.

PERRY, Okla, May 2—Mrs Zoe Larb, wife of a prominent and wealthy farmer at Stillwater, Okla, shot and killed her stepdaughter Mrs MacHenry The women quarreled Tuesday and the daughter left the house. When she returned she was met at the door by Mrs. Larb, who told her if she came in she would kill her. Mrs MacHenry turned around to leave, but Mrs. Larb mistook her motion and thought she was entering the door. She shot her just above the heart Mrs. Larb gave herself up. There is some talk of mob law.

FALSE PRETENDERS

Illinois Will Legislate Against Schweinfurth.

SPRINGFIELD, Ills, May 2—A bill was introduced in the legislature today which is aimed at Schweinfurth, the Rockford "Christ" It provides that whoever assumes or pretends to be the Deity or assumes to posses the attributes of the Deity, or who ever falsely assumes or pretends to be the son of God, or Jesus Christ and holds himself out to the world as possessing either or any of the attributes generally attributed to the Deity or whoever claims to be the incarnation of what is commonly known and called the saving graces of the Holy Ghost or Jesus Christ shall be deemed guilty of a misdemeanor and upon conviction shall be imprisoned in the penitentiary from one to two years.

INDIANA OIL NEWS.

Adams County People Enthusiastic Over the Prospect There.

DECATUR, Ind., May 2.—There is great oil excitement in this county at present and it increases daily. In the gas fields in the southern part of the county farmers are leasing their land at high figures. A stock company is being organized here to invest a large sum prospecting for oil. The J. B White Oil company, recently organized at Fort Wayne, last Saturday leased twelve hundred acres of land near Geneva and is already putting down six wells. During the rush the Decatur Trenton Rock Mining company disposed of its natural gas plant in this city to the Dieterich syndicate for $140,000. Experienced oil men say there will be thousands of dollars lost in oil speculation in this country.

PEACE SETTLEMENT.

Russia, Japan and China Finally Come to Terms.

PARIS, May 2—The Matin today says that Japan is treating with Russia, France and Germany and that a peaceful settlement of the matters in dispute, arising from Russia's objections to the terms of the treaty arrived at between China and Japan, is probable. The Gaulois asserts that the three western powers are about to achieve a diplomatic victory, adding that Japan is inclined to accept a territorial concession in another direction, which is agreeable to Russia.

A TIE ON THE RAILS

Causes a Passenger Train to go Into the Ditch.

MARSHALLTOWN, Iowa, May 2—The north-bound passenger train on the Chicago and Great Western railroad was wrecked between Green Mountain and Gallbrook last night by striking a tie placed on the track by unknown miscreants. The engine and three coaches were thrown down a five foot embankment and are now lying there in the ditch. The baggageman and brakeman were slightly injured, but the rest of the crew and the passengers escaped unhurt.

VAN WERT'S MARSHAL.

The Death of C. W. Clippenger at Van Wert.

VAN WERT, Ohio, May 2—City Marshal C W. Clippenger died this morning at 5 o'clock, aged forty-five He had been ill more than six months and his death was not unexpected. After his death this morning the fire bell was tolled the first time in its history.

Taken From His Wealth.

NEW YORK, May 2—John Huff who is said to have fallen heir to $1,500,000 by the death of Charles Easthoff, a wealthy Californian, in 1893, has died at Matawan, N. J. Huff nursed Easthoff twenty years ago through an attack of typhoid fever when no one else would go near him, and the entire estate has been his reward.

THE MARKETS.

Chicago Market.

CHICAGO, May 2.—Wheat, May, 60½c, June, 61c, July, 64⅝c asked Sept, 61½c.

Corn, May, 48⅛@½c, July, 49c asked, Sept, 49c.

Oats, May, 28½@⅝c, June, 28¾c, July, 28½c; Sept., 25c.

Pork, May $12 15, July, $12 40 bid, Sept, $12 60 bid

Lard, May, $6 72, July, $6 90, Sept., $7 05

Ribs, May, $6 17, July, $6 32 bid, Sept, $6 47.

THE SEASON OPENS.

First Local Game of the Western Inter-State Ball League.

The Fort Wayne Nine Crosses Bats With the Aurora Boys—Good Crowd in Attendance.

Rigged out in their new black suits, with white trimmings, the Fort Wayne ball team this afternoon began the contest for the penant, opening the regular Western Inter State league season at Lakeside park with the Aurora nine

The manager of the Aurora team, George M. Dowell, arrived in the city last evening with his team and registered at the Rich. The nine is a well put up crowd of young fellows, and just what to expect of them this afternoon is hard to tell, as they are "dark horses," so to speak.

Fort Wayne people should turn out en masse this week and give the home team all the encouragement possible, as the boys are good ball players, every one of them, and so far this season have worked to a disadvantage. Under the the guidance of Manager Belger they will make a hard fight for a winning place in the league

The following is the batting order:

AURORA	FORT WAYNE
Thorne, 2b.	White, 2b
Marsh, ss	Bills, ss.
Wood, lf	Bolan, c.
Gibson, 1b.	Hazen, 1b.
Mayham, p	Parker, lf.
Beckwith, cf	Anderson, 1b
Hunton, c	Croaker, cf
Riley, c	Brace, rf.
Ashby, rf.	Walsh, p.
Snyder, bench	Murray, bench.

STRAY TIPS

The Grand Rapids team was badly worsted at Indianapolis yesterday.

C. L. Drummond will act as official scorer for the league during the games played in this city.

Manager Belger denies that he has relieved Andrus of the captaincy and appointed Hazen to the position The report is an injustice to both men and is discouraging in its effect on the team

The policemen did not play the printers yesterday afternoon In fact, they crawfished out of an engagement and offered a dozen or more excuses for not showing up. The printers were at Lakeside park waiting for the cops but as they did not show up the "prints" engaged in a game with the Fort Wayne league club.

MOORISH PALACE.

A Marvel for the Atlanta Exposition Visits Fort Wayne.

A SENTINEL man, on his round for news, this morning, noticed the word, "Mysto," painted on the pavement. He thought nothing of it, because so many fakes advertise in this manner, but when he saw thousands of dollars worth of mirrors being unloaded—a car load, and dray after dray coming with all kinds of the curious devices, and unload themselves at No. 13 East Main street, he was overcome with curiosity.

"Who is it?" and 'What is it?' At this question he was surprised to meet none other than J. C. Tauber, the inventor of the Columbus clock, and the mechanical wonder which is exhibited in every city of the union. He is also the inventor of the mirror maze of the Moorish Palace of the World's Fair.

Mr. Tauber, seeing the popularity gained by that feature, determined to arrange an elaborate exhibition of this order and has added to the "Maze" a line of original features, which combined form a most marvelous exhibition of mirror illusions.

For instance you enter the silver forest which seemingly for miles is a perfect labyrinth of bewilderment After hunting your way through you enter the "Maze," like the Moorish Palace, you emerge from this into the likeness chamber and "see yourself as others see you" Front, back, side view, walking in every direction, multiplied in dozens and scores of your own image Then you enter the the "Phantom Car" and apparently ride 200 miles per hour. The spectator grasps the back of the seat and frantically holds on. Some will scream with excitement, others will laugh, but it's all an illusion—you have not moved an inch The Mysto is a feature for the Atlanta exposition. From here it goes back to Columbus, Ohio, where a room is being fitted up, when it will be exhibited until August, after which it goes to the Atlanta exposition. It will be on exhibition in our city for a few weeks only.

CHRISTIAN ENDEAVOR.

District Convention Held in This City Next Week.

Many Delegates Will Be in Attendance —An Outline of the Program of the Meeting.

The district convention of the Christian Endeavor societies will be held at the Westminster church in this city on May 9th, 10th and 11th and every Endeavor society in the city is just now very busy making preparations for a successful and enthusiastic convention. Delegates will be in attendance from Decatur, Huntington, Columbia City and all the towns in the district They will be the guests of the Endeavorers of our city.

The program committee has prepared a very interesting program The opening meeting will be held Thursday evening, May 9, and will be a grand rally in the interest of "good citizenship" There will be five minute addresses from the pastors of Fort Wayne and Endeavor rallying songs, led by a large chorus choir. There will be various meetings throughout the day on Friday and Friday evening another grand rally of all the societies of the district. The closing meeting will be Saturday forenoon.

Special music is being arranged by a selected chorus choir from all the societies. These choirs will form one large chorus under the leadership of Mr. E. F. Varnelle.

Christian Endeavor conventions are always full of earnest enthusiasm and every city which is so fortunate as to have a convention o' this kind is always glad to extend its welcome hospitality.

HUNTING HER BROTHER

A Poor Girl Comes All the Way From Cincinnati.

She Thought From Newspaper Accounts That "Reddy" Lane Was Her Relative—Police News.

This morning, at an early hour, a plainly dressed young lady called at the office of Supt of Police Liggett. She gave her name as Miss Jennie Lane and said her home was in Cincinnati. She further stated that she was looking for her brother, William, who had been strangely missing for two years past. Seeing in the papers that a man named William Lane had been arrested in this city, she had come here in the hopes that the man was her long lost brother. The superintendent took the young lady to the jail but Miss Lane, when she saw the prisoner, who, it will be remembered, was arrested as an accomplice of the Dolan crowd, she said that he was not her brother. The officers then noticed the fact that there was a remarkable likeness between the girl and the prisoner. Their features were so much alike that anyone, almost, without thought, would pronounce the two brother and sister.

The missing young man was only twenty-four years of age but 'Reddy' Lane is at least forty. Miss Lane stated that her brother had gone to Idaho but had never since been heard from. Her mother is poor but the girl works and spends every cent looking for her brother. She returned to Cincinnat at noon.

WAS A FIGHTER

A well dressed, active little fellow was put off Pittsburg passenger train No 8 three times last night, the third time by Detective Stoll. The man showed fight and the officer placed him under arrest. On the way to the baggage room to telephone for the wagon, under pretense of getting his handkerchief the fellow pulled a razor and attempted to carve the officer. He was temporarily put to sleep for his foolishness and when he came to his senses said his name was John McGouvern and that he had been employed on the Chicago and Erie road and at Huntington. He was trying to beat his way to his home in Brooklyn. This morning before Mayor Oakley, McGouvern had Attorney Bittenger to defend him, but the mayor imposed a fine of $5 and costs.

OTHER POLICE CASES.

Ed. Thompson and Bert Tanner were two small boys who had run away from their home in Napoleon, Ohio. They were arrested last evening by Officer Buechner and were this morning sent to jail for fifteen days.

Em. Baker and Renold Armstrong were arrested by Officer Paul last night Both were let go by the mayo

BURGLARS FRIGHTENED AWAY.

The other night burglars made an attempt to enter the residence of James W. Wilding, corner Park Place and Webster street During the night the window was raised, but the thief or thieves were likely frightened away by some one in the neighborhood. Upon investigation footprints were discovered leading from the front porch to Williams' grove, directly opposite. The lawn had been sprinkled the previous evening, and the imprints in the sod were clearly discernible. A former attempt at burglarizing the residence was made about four months ago The burglars succeeded in gaining entrance to the house through a rear window, but the noise awakened the family and the burglars fled before securing anything

WAGES ADVANCED.

The Striking New Castle Furnace Men Win Their Fight and All Resumed Work This Morning.

NEW CASTLE, Pa, May 2.—The striking employes in all four of New Castle's furnaces have been granted an advance and went to work this morning. The settlement was effected on the basis of $1 60 for turn men, instead of $1 40, which they have been receiving. This scale was in effect five years ago. It will raise keepers' wages from $1.75 to $2 05 per day, top fillers, from $1 60 to $1 80; laborers, $1 20 to $1 30, iron carriers, 13 cents per ton

TIRED OF LIFE.

Cashier Maguire Shoots Himself at Omaha.

OMAHA, Neb, May 2—William H. Maguire, assistant cashier of the First National bank, committed suicide today by shooting himself through the head, at the residence of George Barker, president of the National Bank of Commerce. No cause is known for the deed

Big Powder Shipments.

SPRINGFIELD, O., May 2—Forty car loads of powder is to be shipped from Goes station, southwest of here, to Cuba, via Norfolk, Va, this week. Officials decline to state whether the powder is for the government or insurgents.

DARING DEED.

A Bold Train Robbery Frustrated.

Brave Engineer Holmes Did It,

And for His Interference He is Shot.

One of the Robbers Caught and Then Released Through the Stupidness of One of His Captors.

SPRINGFIELD, Ill., May 2.—The Chicago and Alton passenger train, due here at 12:30 a. m., was boarded by robbers at Carlinville. At a place one-half mile north of there the bandits attacked the trainmen and ordered them to hold up their hands. The engineer and fireman refused and a desperate fight began. Six shots were fired and Engineer Holmes was killed.

The men wore no masks, but one of them had a gunnysack wrapped about his body. This was the man who shot the engineer and when the three men leaped from the engine he was caught by one of the mail carriers and held. Trainmen and passengers pursued the other two men and overtook and brought them back. The train was then backed down to the depot by the fireman and the prisoners handed over to the authorities.

CHICAGO, May 2.—Officials of the Alton road deny emphatically today that there was any attempt to hold up the train at Carlinville last night when Engineer Frank Holmes was shot and killed. The shooting, they say, was done by tramps. John J. Mitchell, of St. Louis, a director of the road, who was on the train, said today:

"It is absurd to talk of a train robbery in connection with that affair. The three tramps simply intended to take possession of the tender and ride free. They climbed aboard and Engineer Holmes ordered them off. When they refused to leave he picked up a piece of coal to throw, when one of the men fired with fatal result. There was evidently no intention on the part of the men to attempt robbery."

The officials of the road think they have the murderer of Holmes in the man who was caught as he was leaving the tender. He is smooth shaven and, while the fireman is not able to positively identify him, he says that the man who did the shooting was beardless. The supposed murderer was hatless when captured, and a hat that fits him was found on the tender. The real name of the tramps are now known to the authorities.

A DESPERATE AFFAIR.

CHICAGO, May 2.—The hold-up of the Chicago and Alton northbound lightning express last night, near Carlinville, Ill., appears to have been a much more desperate affair than at first reported. Immediately upon the arrival of the train in Chicago today a reporter of the Associated Press interviewed Mail Clerk J. P. Kevors, who was aboard at the time of the attack. Mr. Kevors said:

"The train was Chicago and Alton No. 3, out of St. Louis at 8:55 last evening. It was held up by armed robbers at Carlinville, just before midnight, and in a plucky fight with the robbers Engineer Frank Holmes laid down his life. Carlinville is fifty-seven miles from St. Louis, and train No. 3, Conductor Conlin and Engineer Holmes, left there on schedule time, 11:14, and began the run to Brighton, the next regular stopping place. Hardly had the train got under way when two tramps lying flat on the coal in the tender were startled by the appearance of two masked men, who came crawling over the tender. Poking two big revolvers into the faces of the tramps, the new comers enjoined them to silence and strict attention to their own business. Passing on to the engine cab, one of the armed men ordered the two firemen—one man extra, learning the road—to put up their hands while the other covered the engineer and ordered him to shut off steam. The engineer complied and then the desperado ordered him to give her a full head and be lively about it. Holmes made a pretense of doing so, and the robber apparently satisfied, stepped back a foot or two. Engineer Holmes was on the alert for the opportunity presented and seizing the fireman's pick, used in breaking coal, he dealt the robber two quick, glancing blows on the head. Both robbers at once opened fire and plucky Frank Holmes fell dead in the gangway of his engine, with at least three bullet holes in his breast. The fireman shut off steam and put on the air, and the heavy train slowed down to a standstill. As it did so the two robbers swung off. A number of men had been riding on the rear platform of the mail car and at the first report two of the mail clerks, working at the letter case, heard one of them exclaim:

"They are shooting; let us get off."

Jumping off, they realized that their plans had miscarried. After a moment of decision, they started to flee. The mail clerks, who had at first supposed that the firing was done by a brakeman as a menace to ejected tramps, heard the fireman shouting:

"Frank Holmes is shot dead."

Mail Clerk John H. Conefrey and Baggageman J. C. Logan, who were in charge of the weighing of mails for the government and railroad company respectively, hastened to their grips, in which lay their Smith & Wesson revolvers, and jumping from the mail car, proceeded to assist the trainmen in their search for the slayers of Frank Holmes.

Hurrying around the engine, Logan stumbled over a man lying prone in the grass and commanded him to rise. Reluctantly complying, the man protested earnestly against arrest and claimed to be in no way connected with the trouble. Conefrey pushed on and came upon a man with a repeating rifle and a belt full of cartridges. His back was turned and Conefrey covered him and ordered him to come along. The man demurred strongly, claiming he had been on a hunting expedition. Conefrey refused to parley and getting his revolver in a line with the suspect's heart, convinced him that he had an earnest man to deal with. Logan and Conefrey turned their men over to Conductor Conlin and the passengers who had come forward, Conlin in the meantime having secured the two tramps who had been on the tender.

The man with the rifle put up so convincing a story to account for his presence, that Conlin was persuaded of his innocence and permitted him to go, an action which the conductor strongly regretted when his emotion over the killing of his old friend Holmes had subsided. The passengers and others believe Conlin made a serious mistake. The man with the Winchester was a counterpart of the ideal desperado in appearance and attire. The three men detained were turned over to a deputy sheriff when the train backed down to Carlinville, a mile away.

Train No. 3 is said to carry at times large sums of money and the object of the bandits was probably to loot the express car, believing that their success would compensate for the desperate chances taken in robbing the train. Chief Agent Kane, of the Chicago and Alton, one of the best railroad detectives in the country, is on the scene and prosecuting a vigorous search for the robbers.

VANDERBILT'S SCHEME.

He Wants the Great Northern and Will Get It.

Will Then Have a Line of His Own From New York City to Puget Sound.

ST. PAUL, Minn., May 2.—The Dispatch this afternoon says: "If rumor be true and the object which called President J. J. Hill to London so hurriedly be not unsuccessfully accomplished Mr. Hill may then have sufficient time on his hands to attend to the Northern Pacific, with which his name has been recently connected. Mr. Hill's control of the Great Northern system comes through the consolidation of his own and Sir Donald Smith's interest in that property. The latter represents all the Montreal interest in the road. Sir Donald has backed Mr. Hill in bringing about the realization of his transcontinental dreams. As long as Mr. Hill was able to keep the support of Sir Donald Smith he was able to swing the road across according to his ideas. Once Mr. Hill was attacked in that quarter, when the late Allen Marvel was vice-president of the road, but Hill came out victorious. Through the same interest Mr. Hill is again attacked and it is stated that he felt the effects so much that he hurried off to Europe to endeavor to recover before it is too late. It is openly stated that the Vanderbilts, appreciating the value of the Great Northern, have secured a hold upon those Canadian holdings and are preparing at the annual meeting in September to relieve Mr. Hill of the control of the system. When Mr. Hill went to New York so hastily he paid a hurried visit to Montreal, where Sir Donald Smith resides, and immediately afterwards took a steamer abroad. The Vanderbilts now control the New York Central, Lake Shore, Michigan Central, Northwestern, Omaha and Elkhorn lines. Their connections is through an ironclad agreement with the Union Pacific. If the Vanderbilts can secure control of the Great Northern they will have a line of their own to Puget Sound from New York, which will interfere materially with the southern route, via the Union Pacific. The Great Northern needs money and can cut no further in pay rolls. Traffic has reached its minimum and hard times have had their effect so that there is every ground for believing that the Vanderbilts, if it is true that they are seeking the control of the line, are in a better position to secure their ends now than they would have been five years ago or will be ten years hence."

Violently Insane.

NEW YORK, May 2.—E. Bardo Elliot, of Maywood, a suburb of Chicago, became violently insane at the Ashland house last night, and was today taken to Bellevue hospital.

French is the language of diplomacy the world over, yet it is said there is only one person in the administration circles at Washington who can speak it with the members of the various diplomatic corps. That person is Miss Morton, sister of the secretary of agriculture. This is a sufficient illustration of the disgraceful ignorance of even educated Americans in the linguistic field.

George Harley, a Springfield (O.) foundryman, claims to have discovered a process for making malleable iron which will render it so cheap as to revolutionize the whole process of iron manufacture. Harley's process does away with the expensive annealing.

DEATH AND DESOLATION

Follow in the Wake of a Western Cyclone.

Fifteen or Twenty Persons Crushed by the Falling Walls of Their Houses and Barns.

HUTCHINSON, Kan., May 2.—Seldom is such wreck and ruin crowded into such a brief space of time as was the result of a cyclone in the farming district twenty miles east of this city yesterday afternoon. About 4:20 p. m., a twisting, hurling cloud was seen to approach Patterson, a small station on the Frisco road, about six miles southwest of Burrton. The air was dry and filled with electricity. Those who saw it say it resembled a great mass of flying smoke and dust from a prairie fire. The air was as it came from a heated furnace, hot and stifling. The storm struck about a mile of Patterson, and for sixteen miles in a northwesterly direction left death and ruin in a path 100 yards to a quarter of a mile in width. Eight persons were killed, as follows:

Mrs. Joseph Wear.
Grace Wear, twelve years old.
Herman Wear, ten years old.
A babe.
John Schmidt.
Miss Schmidt.
Dora Schmidt.
Frank Schmidt.

More than twenty persons were injured, among them being the

Widow Frye, internally, cannot recover.
Joseph Wear, will die.
Mrs. J. R. Frizzell, fatally injured.
Jacob S. Stinchey, injured on the head.
Cyrus Henson, seriously injured.
Mrs. William Armstrong.

WICHITA, Kan., May 2.—Further details of the cyclone near Halstead show that ten persons were killed. Besides the six mentioned in last night's dispatches the home of John Schmidt was destroyed and the entire family of four persons, father, mother, son and daughter were killed. Their names are Mr. John Schmidt, Mrs. John Schmidt, Dora Schmidt and Franz Schmidt.

NEWTON, Kan., May 2.—Further particulars of last night's cyclone in this vicinity report the death list will probably reach fifteen or twenty. Those known to be dead are:

Mrs. A. Chapin.
Joseph Wilo, wife and three children.
William Armstrong.
Mrs. Frizzle.
Miss Cora Surff.

There are about as many badly injured. The physicians of surrounding towns have gone to the assistance of the injured. The course of the storm was almost due north and missed Halstead and Mound Ridge by a few miles only. The family of M. E. Hege escaped by being in the cellar, while the $1,000 residence above them was completely demolished. Cattle are strewn over the prairies for miles and debris is everywhere. The storm did not raise from the ground and moved with moderate velocity. It demolished ten telegraph poles in crossing the Main line of the Santa Fe. The force of the storm broke north of Mound Ridge. Hundreds of people have turned out from Newton, Halstead and Burrton to assist the injured and to recover the remains of the dead. Several persons are missing and a search is being made for their bodies.

ZELLA'S SUIT.

Files the Papers With the Clerk of the Court.

She Alleges That George J. Gould Has Fraudulently Converted a Bank Certificate to His Own Use.

TRENTON, N. J., May 2.—The papers in the case of Rosella Rohman, better known as Zella Nicolaus, against Geo. J. Gould for $40,000, were filed this morning in the office of the clerk of the supreme court of this state. The papers aver that the plaintiff was in possession of a check or deposit certificate of the value of $10,000 and that this certificate, which she afterwards lost in Jersey City, was found by Geo. J. Gould, who has refused to return it, although repeatedly asked to do so. She then charges that Gould has fraudulently converted the certificate to his own use. The petition sets out that the plaintiff is only nineteen years old and a minor and asks that the court appoint Lawyer Alexander Simpson as her next friend, to prosecute the suit. The court grants the request. Gould must file his answer within twenty days from the time the summons was served. The summons was served on Gould at Communipaw last week.

DR. PARKHURST.

He Will Spend the Summer in Europe.

NEW YORK, May 2.—Dr. Parkhurst will sail for Europe June 5, to be gone until September 20. For several years past his vacations have been spent in Switzerland. This time he will go to Russia. "I like," he said last night, "to study new social and economical conditions. Most of Europe is pretty much like America in these conditions, though in Holland one sees some different modes of life. In Russia the conditions are entirely distinct. I want to study them. Mrs. Parkhurst and I will go to London, Copenhagen, Stockholm, St. Petersburg, Moscow, Vienna and then into Switzerland. That is the country I like best of all in Europe. The Alps are grand beyond description. We shall stay at Vevey. I shall be glad to get away from politics and turmoil, yet it always seems good to come home again."

A SECRET SESSION.

Ohio Miners at Work Upon a Knotty Question.

Developments Watched With Great Interest, as the Matter of Cessation of Mining is at Stake.

COLUMBUS, Ohio, May 2.—The Ohio Miners' association, by committee, informed the operators that a joint session of operators and miners cannot be held until tomorrow. The miners then went into secret session. They began work early. They are very reticent, more so than at the late conference in January and more so than usual. They are divided in opinion upon the question of asking the operators to retain ten cents to go toward the support of certain Pittsburg miners who are striking for terms which would give employment in Ohio, Indiana and Illinois, but as heretofore stated, and as repeated again today by the operator's chief spokesman, such retention and use of money would practically amount to illegal conspiracy and cannot be accepted. The situation, therefore, is that unless the miners in the secret session who oppose this effort at alleged conspiracy can prevail upon its friends to recede, times ahead, according to the operators, and especially in the Hocking Valley, present a positive prospect of absolute cessation of mining.

PIEDMONT, Va., May 2.—This town was placarded last night with notices appealing to the miners here to join the West Virginia strikers, but both of the companies located here are running today, though with a lighter force. Good order prevails. No requisition has been made for troops by the companies here. The Southwest Virginia Improvement company, the largest operators in the fields, are maintaining a position of neutrality and working according to the demands of coal. They claim that there is no cause for a strike among their men existing, and they will keep open as long as the men work. A great pressure is being used to bring these miners into the strike and their failure to join is the chief source of conversation in the coal fields. Some of the miners here will not enter the mines until there are further developments. The impression prevails that the miners here will finally join or there will be trouble. The N. & S. W. railroad company are removing their employes from the region of the strike to this point. No decided outbreak is feared before Monday, but everything is uncertain. The West Virginia miners who came in last evening left on a later train to report the position of the local miners and meetings will be held today to decide what course to pursue. Messrs. Patrick McBride and Loveless are in the fields assuring the men that aid will be given to all strikers and their families.

KEELEY'S GOLD CURE.

W. F. Johnson Says It Ruined His Health,

And He Brings Suit for $100,000 Against the Doctor—The Doctor Must Divulge His Secret.

LEAVENWORTH, Kas., May 2.—Judge Myers, of the district court, has made a very important order affecting the rights of Dr. Leslie E. Keeley. W. F. Johnson, of Topeka, sues Dr. Keeley for $100,000 damages, the petition reciting that the plaintiff has been made a physical wreck because of the gold cure. Judge Meyers, in granting petitioner's request, rules that Dr. Keeley must make known the ingredients of his bi-chloride of gold compound. The court holds that the cure is not a property right nor guarded secret. It is unprotected by a patent, has been in use more than two years and there is nothing to prevent Dr. Keeley retaining it and that he must tell what it is.

USING BOODLE.

Charges of Bribery in the Illinois Legislature.

ANNA, Ills., May 2.—Charges that boodle is being used and that attempts at bribery are being made at Springfield among the legislature are alleged by Representative Peckerill, whose home is in this city. Mr. Peckerill says a money bribe was offered him by a fellow member if he would keep his mouth shut about an alleged attempt to bury in senate committee the bill to regulate and fix the charges of express companies doing business in the state, and to declare all such corporations or companies common carriers.

Sharf Acquitted.

SAN FRANCISCO, May 2.—Herman Sharf has been acquitted in the United States circuit court of the charge of assisting in the murder of Second Mate Maurice FitzGerald, of the American bark Hesper. He was found guilty on a former trial and the United States supreme court reversed the case. Sharf was the only witness to the murder ever placed on the stand, and he was cleared on the ground that he and Hanson did not commit the murder or assist therein, but that they threw the body overboard to shield St. Clair and to save the captain's life.

Not Found Yet.

SAN FRANCISCO, May 2.—The mystery of the bookkeeper, Chas. Smith's disappearance, who vanished on Sunday from the office of McGlauflin & Co., grain brokers, has not yet been unravelled. It is said that his disappearance has some connection with the Fair wheat deal investigation.

HOME AT LAST.

Daniel W. Souder Arrives in the City Safely.

Is Met at the Wabash Depot by His Brother and Taken at Once to His Country Home.

In response to a telegram received here late yesterday afternoon from ex-County Clerk Daniel W. Souder, who so mysteriously disappeared over four months ago, notifying him that Mr. Souder was in Detroit, County Clerk Harry M. Metzgar left for that city at 9 o'clock, arriving there last night, and later he telegraphed to friends here that he had found Mr. Souder at the Wayne hotel in that city. He said that Mr. Souder was in a bad condition mentally and physically, that he had sailed from Cape Town, South Africa, on March 20, for London, and from thence to Boston, where he landed on the 27th of April, and yesterday he arrived at Detroit. Mr. Metzgar said that he would be at home today with Mr. Souder.

The first train today which Mr. Souder could arrive on was the Wabash, which reaches here at 1:15 p. m. A SENTINEL reporter was therefore in waiting at the depot when the train pulled in. Several other of Mr. Souder's friends were also on hand, as it was generally expected that he would be aboard.

Sure enough when the train arrived Mr. Souder and County Clerk Harry Metzgar were among the first passengers to step off the train. The first person to greet Mr. Souder was his brother, Rev. Henry Souder, of Bluffton. The meeting between the two men was quite cordial. The next person to shake Mr. Souder's hand was THE SENTINEL reporter.

"How do you do, Mr. Souder? Are you in good health?" said the newspaper man.

"Yes, I am quite well and glad to see you all," answered the traveler.

At this juncture a number of other gentlemen stepped up and the scribe was unable to get in another word. The ex-county clerk was quickly taken across the Pittsburg tracks to the foot of Clinton street by Rev. Souder and J. H. Beahler, the insurance man. Here they were met by Martin V. Connett with a carriage and the party were driven up Clinton street. At Holman street Mr. Beahler got out of the buggy. Mr. Souder was driven on out to his home.

Just before Mr. Souder got in the buggy he was again approached by the newspaper man and asked if he had any statement to make to the papers. Mr. Souder turned partly round, raised his cane in a threatening manner, and said:

"If it hadn't been for the cursed newspapers I wouldn't be in this condition today."

This was the only expression which could be gotten from him.

Harry Metzgar took a hack and was driven off to his home.

Mr. Souder had no trunk but instead carried a large sized valise. He looks in the best of health and was dressed in a plum colored suit and wore a dark, slouch hat.

County Clerk Metzgar was met late this afternoon at his office by a SENTINEL reporter, and in reply to questions, said:

"I found Mr. Souder last night in his room in the Wayne hotel, in Detroit, and left with him this morning for Fort Wayne, coming by the way of Toledo, over the Wabash. His mental condition is one that calls for pity, although physically he is in the best of health. He arrived in Boston from London on April 27. I have not the least doubt in the world but that Mr. Souder was at Cape Town, Africa, as his letter home stated. He had in his possession a Cape Town newspaper giving his name among the list of arriving passengers at that place. He also had a list of passengers of the departing vessel and his name was among them. At Boston he bought a railroad ticket to St. Louis, via Detroit, and the unused portion of this ticket from Detroit to St. Louis, he gave to me. At Detroit he evidently came to his mind, realizing his condition, and telegraphed home. After that he went to his room and remained there until I came. He has periods when his mind seems to be clouded and he does not know where he is or what he is doing. A right mind evidently came to him at Cape Town and he determined to start for home, but since then he became unbalanced, and this accounts for his trip to Boston and his purchase of a ticket in that city for St. Louis. He says he does not know why he left Fort Wayne. His story of his wanderings to me was as follows:

"January 15 last I bought a ticket to Indianapolis. I only went as far as Peru and changed my course to Detroit. From Detroit I went to Montreal and then to Halifax. From Halifax I sailed, January 19, for Liverpool on the steamer Laurentian. I went to London and then sailed for Cape Town, South Africa, on the steamer Dunbar Castle, of the Castle line, Captain Pierce. From Cape Town I went to Johannesberg, the center of the gold fields in Transvaal, the South African republic. I went back again to Cape Town, and March 20 last left for my return home."

Wants Peace.

VANCOUVER, B. C., May 2.—Advices brought by the Empress of China from China states that the emperor of China has sent over 200 bolts of the most valuable silk stuffs to the emperor of Japan as a token of his (the Chinese emperor's) desire for a restoration of peace. Over 700 telegrams congratulating the Japanese on the armistice were received from the naval and military officers of various foreign powers up to the third ultimo.

FEMALE MURDERER.

Mrs. Larb Shoots Her Stepdaughter, Mrs. MacHenry.

The Ball Passes Through the Body of the Victim and She Sinks Down in the Doorway.

PERRY, Okla., May 2.—Mrs. Zoe Larb, wife of a prominent and wealthy farmer at Stillwater, Okla., shot and killed her stepdaughter, Mrs. MacHenry. The women quarreled Tuesday and the daughter left the house. When she returned she was met at the door by Mrs. Larb, who told her if she came in she would kill her. Mrs. MacHenry turned around to leave, but Mrs. Larb mistook her motion and thought she was entering the door. She shot her just above the heart. Mrs. Larb gave herself up. There is some talk of mob law.

FALSE PRETENDERS.

Illinois Will Legislate Against Schweinfurth.

SPRINGFIELD, Ills., May 2.—A bill was introduced in the legislature today which is aimed at Schweinfurth, the Rockford "Christ." It provides that whoever assumes or pretends to be the Deity or assumes to posses the attributes of the Deity, or who ever falsely assumes or pretends to be the son of God, or Jesus Christ and holds himself out to the world as possessing either or any of the attributes generally attributed to the Deity or whoever claims to be the incarnation of what is commonly known and called the saving graces of the Holy Ghost or Jesus Christ shall be deemed guilty of a misdemeanor and upon conviction shall be imprisoned in the penitentiary from one to two years.

INDIANA OIL NEWS.

Adams County People Enthusiastic Over the Prospect There.

DECATUR, Ind., May 2.—There is great oil excitement in this county at present and it increases daily. In the gas fields in the southern part of the county farmers are leasing their land at high figures. A stock company is being organized here to invest a large sum prospecting for oil. The J. B. White Oil company, recently organized at Fort Wayne, last Saturday leased twelve hundred acres of land near Geneva and is already putting down six wells. During the rush the Decatur Trenton Rock Mining company disposed of its natural gas plant in this city to the Dieterich syndicate for $140,000. Experienced oil men say there will be thousands of dollars lost in oil speculation in this country.

PEACE SETTLEMENT.

Russia, Japan and China Finally Come to Terms.

PARIS, May 2.—The Matin today says that Japan is treating with Russia, France and Germany and that a peaceful settlement of the matters in dispute, arising from Russia's objections to the terms of the treaty arrived at between China and Japan, is probable. The Gaulois asserts that the three western powers are about to achieve a diplomatic victory, adding that Japan is inclined to accept a territorial concession in another direction, which is agreeable to Russia.

A TIE ON THE RAILS

Causes a Passenger Train to go Into the Ditch.

MARSHALLTOWN, Iowa, May 2.—The north-bound passenger train on the Chicago and Great Western railroad was wrecked between Green Mountain and Gallbrook last night by striking a tie placed on the track by unknown miscreants. The engine and three coaches were thrown down a five-foot embankment and are now lying there in the ditch. The baggageman and brakeman were slightly injured, but the rest of the crew and the passengers escaped unhurt.

VAN WERT'S MARSHAL.

The Death of C. W. Clippenger at Van Wert.

VAN WERT, Ohio, May 2.—City Marshal G. W. Clippenger died this morning at 5 o'clock, aged forty-five. He had been ill more than six months and his death was not unexpected. After his death this morning the fire bell was tolled the first time in its history.

Taken From His Wealth.

NEW YORK, May 2.—John Huff, who is said to have fallen heir to $1,500,000 by the death of Charles Easthoff, a wealthy Californian, in 1893, has died at Matawan, N. J. Huff nursed Easthoff twenty years ago through an attack of typhoid fever when no one else would go near him, and the entire estate has been his reward.

THE MARKETS.

Chicago Market.

CHICAGO, May 2.—Wheat, May, 63½c; June, 64¼c; July, 64½c asked; Sept., 64½c.

Corn, May, 48½@¾c; July, 49c asked; Sept., 49½c.

Oats, May, 28½@¾c; June, 28½c; July, 28½c; Sept., 25½c.

Pork, May, $12.15; July, $12.40 bid; Sept., $12.60 bid.

Lard, May, $6.72; July, $6.90; Sept., $7.05.

Ribs, May, $6.17; July, $6.32 bid; Sept., $6.47.

THE SEASON OPENS.

First Local Game of the Western Inter-State Ball League.

The Fort Wayne Nine Crosses Bats With the Aurora Boys—Good Crowd in Attendance.

Rigged out in their new black suits, with white trimmings, the Fort Wayne ball team this afternoon began the contest for the penant, opening the regular Western Inter-State league season at Lakeside park with the Aurora nine.

The manager of the Aurora team, George M. Dowell, arrived in the city last evening with his team and registered at the Rich. The nine is a well put up crowd of young fellows, and just what to expect of them this afternoon is hard to tell, as they are "dark horses," so to speak.

Fort Wayne people should turn out en masse this week and give the home team all the encouragement possible, as the boys are good ball players, every one of them, and so far this season have worked to a disadvantage. Under the guidance of Manager Belger they will make a hard fight for a winning place in the league.

The following is the batting order:

AURORA.	FORT WAYNE.
Thorne, 2b.	White, 2b.
Murphy, s.s.	Ball, ss
Wood, l.f.	Bolan, c.
Gilson, 1b.	Hazen, 3b.
Maytum, p.	Parker, l.f.
Beckwith, c.f.	Andrews, 1b.
Hanford, r.f.	Crook, r.f.
Riley, c.	Cragg, c.f.
Ashby, 3b.	Walsh, p.
Sunder, bench.	Murray, bench.

STRAY TIPS.

The Grand Rapids team was badly worsted at Indianapolis yesterday.

C. L. Drummond will act as official scorer for the league during the games played in this city.

Manager Belger denies that he has relieved Andrews of the captaincy and appointed Hazen to the position. The report is an injustice to both men and is discouraging in its effect on the team.

The policemen did not play the printers yesterday afternoon. In fact, they crawfished out of an engagement and offered a dozen or more excuses for not showing up. The printers were at Lakeside park waiting for the cops but as they did not show up the "prints" engaged in a game with the Fort Wayne league club.

MOORISH PALACE.

A Marvel for the Atlanta Exposition Visits Fort Wayne.

A SENTINEL man, on his round for news, this morning, noticed the word, "Mysto," painted on the pavement. He thought nothing of it, because so many fakes advertise in this manner, but when he saw thousands of dollars worth of mirrors being unloaded—a car load, and dray after dray coming with all kinds of the curious devices, and unload themselves at No. 13 East Main street, he was overcome with curiosity.

"Who is it?" and "What is it?" At this question he was surprised to meet none other than J. C. Tauber, the inventor of the Columbus clock, and the mechanical wonder which is exhibited in every city of the union. He is also the inventor of the mirror maze of the Moorish Palace of the World's Fair.

Mr. Tauber, seeing the popularity gained by that feature, determined to arrange an elaborate exhibition of this order and has added to the "Maze" a line of original features, which combined form a most marvelous exhibition of mirror illusions.

For instance you enter the silver forest which seemingly for miles is a perfect labyrinth of bewilderment. After hunting your way through you enter the "Maze," like the Moorish Palace, you emerge from this into the likeness chamber and "see yourself as others see you." Front, back, side view, walking in every direction, multiplied in dozens and scores of your own image. Then you enter the the "Phantom Car" and apparently ride 200 miles per hour. The spectator grasps the back of the seat and frantically holds on. Some will scream with excitement, others will laugh, but it's all an illusion—you have not moved an inch. The Mysto is a feature for the Atlanta exposition. From here it goes back to Columbus, Ohio, where a room is being fitted up, when it will be exhibited until August, after which it goes to the Atlanta exposition. It will be on exhibition in our city for a few weeks only.

CHRISTIAN ENDEAVOR.

District Convention Held in This City Next Week.

Many Delegates Will Be in Attendance—An Outline of the Program of the Meeting.

The district convention of the Christian Endeavor societies will be held at the Westminster church in this city on May 9th, 10th and 11th and every Endeavor society in the city is just now very busy making preparations for a successful and enthusiastic convention. Delegates will be in attendance from Decatur, Huntington, Columbia City and all the towns in the district. They will be the guests of the Endeavorers of our city.

The program committee has prepared a very interesting program. The opening meeting will be held Thursday evening, May 9, and will be a grand rally in the interest of "good citizenship." There will be five-minute addresses from the pastors of Fort Wayne and Endeavor rallying songs, led by a large chorus choir. There will be various meetings throughout the day on Friday and Friday evening another grand rally of all the societies of the district. The closing meeting will be Saturday forenoon.

Special music is being arranged by a selected chorus choir from all the societies. These choirs will form one large chorus under the leadership of Mr. E. F. Yarnelle.

Christian Endeavor conventions are always full of earnest enthusiasm and every city which is so fortunate as to have a convention of this kind is always glad to extend its welcome hospitality.

HUNTING HER BROTHER

A Poor Girl Comes All the Way From Cincinnati.

She Thought From Newspaper Accounts That "Reddy" Lane Was Her Relative—Police News.

This morning, at an early hour, a plainly dressed young lady called at the office of Supt. of Police Liggett. She gave her name as Miss Jennie Lane and said her home was in Cincinnati. She further stated that she was looking for her brother, William, who had been strangely missing for two years past. Seeing in the papers that a man named William Lane had been arrested in this city, she had come here in the hopes that the man was her long lost brother. The superintendent took the young lady to the jail but Miss Lane, when she saw the prisoner, who, it will be remembered, was arrested as an accomplice of the Dolan crowd, she said that he was not her brother. The officers then noticed the fact that there was a remarkable likeness between the girl and the prisoner. Their features were so much alike that anyone, almost, without thought, would pronounce the two brother and sister.

The missing young man was only twenty-four years of age but "Reddy" Lane is at least forty. Miss Lane stated that her brother had gone to Idaho but had never since been heard from. Her mother is poor but the girl works and spends every cent looking for her brother. She returned to Cincinnati at noon.

WAS A FIGHTER.

A well dressed, active little fellow was put off Pittsburg passenger train No. 8 three times last night, the third time by Detective Stoll. The man showed fight and the officer placed him under arrest. On the way to the baggage room to telephone for the wagon, under pretense of getting his handkerchief the fellow pulled a razor and attempted to carve the officer. He was temporarily put to sleep for his foolishness and when he came to his senses said his name was John McGouvern and that he had been employed on the Chicago and Erie road and at Huntington. He was trying to beat his way to his home in Brooklyn. This morning before Mayor Oakley, McGouvern had Attorney Bittenger to defend him, but the mayor imposed a fine of $5 and costs.

OTHER POLICE CASES.

Ed. Thompson and Bert Tanner were two small boys who had run away from their home in Napoleon, Ohio. They were arrested last evening by Officer Buechner and were this morning sent to jail for fifteen days.

Em. Baker and Renold Armstrong were arrested by Officer Paul last night. Both were let go by the mayor.

BURGLARS FRIGHTENED AWAY.

The other night burglars made an attempt to enter the residence of James W. Wilding, corner Park Place and Webster street. During the night the window was raised, but the thief or thieves were likely frightened away by some one in the neighborhood. Upon investigation footprints were discovered leading from the front porch to Williams' grove, directly opposite. The lawn had been sprinkled the previous evening, and the imprints in the sod were clearly discernible. A former attempt at burglarizing the residence was made about four months ago. The burglars succeeded in gaining entrance to the house through a rear window, but the noise awakened the family and the burglars fled before securing anything.

WAGES ADVANCED.

The Striking New Castle Furnace Men Win Their Fight and All Resumed Work This Morning.

NEW CASTLE, Pa., May 2.—The striking employes in all four of New Castle's furnaces have been granted an advance and went to work this morning. The settlement was effected on the basis of $1.60 for turn men, instead of $1.40, which they have been receiving. This scale was in effect five years ago. It will raise keepers' wages from $1.75 to $2.05 per day; top fillers, from $1.60 to $1.80; laborers, $1.20 to $1.30; iron carriers, 13 cents per ton.

TIRED OF LIFE.

Cashier Mcquire Shoots Himself at Omaha.

OMAHA, Neb., May 2.—William H. Mcquire, assistant cashier of the First National bank, committed suicide today by shooting himself through the head, at the residence of George Barker, president of the National Bank of Commerce. No cause is known for the deed.

Big Powder Shipments.

SPRINGFIELD, O., May 2.—Forty car loads of powder is to be shipped from Goes station, southwest of here, to Cuba, via Norfolk, Va., this week. Officials decline to state whether the powder is for the government or insurgents.

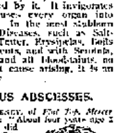

LOOK OUT FOR BREAKERS AHEAD

when "pimples," eruptions, boils, and like manifestations of impure blood appear. They wouldn't appear if your blood were pure and your system in the right condition. They show you what you need—a good blood-purifier; that's what you get when you take Dr. Pierce's Golden Medical Discovery.

It carries health with it. All Blood, Skin and Scalp Diseases, from a common Blotch, or Eruption, to the worst Scrofula, are cured by it. It invigorates the liver and rouses every organ into healthful action. In the most stubborn forms of Skin Diseases, such as Salt-rheum, Eczema, Tetter, Erysipelas, Boils and kindred ailments, and with Scrofula, in every shape, and all blood-taints, no matter from what cause arising, it is an unequaled remedy.

SCROFULOUS ABSCESSES.

Mrs. Sweeney.

MRS. DELLE SWEENEY, of *Flat Top, Mercer Co., W. Va.*, writes: "About four years ago I took scrofula, and did everything that doctors and others prescribed, but only got worse. Several abscesses formed about my neck and breast, discharging a quantity of matter. I got so weak I could scarcely walk about the house. I read all the medical works I could get hold of, and, among the rest, read some of your works. You described my case, and recommended Doctor Pierce's Golden Medical Discovery with his 'Pleasant Pellets.' So I procured some and commenced using them and soon began to mend. In six months my sores were all healed up. I am forty-five years old and believe I am as stout as I ever was in my life. I used about one dozen bottles of the 'Golden Medical Discovery' with the 'Pellets,' and used nothing else after I began using your medicines."

DIRECTIONS for using CREAM BALM.

Apply a particle of the Balm well up into the nostrils. After a moment draw strong breath through the nose. Use three times a day, after meals preferred, and before retiring.

ELY'S CREAM BALM opens and cleanses the Nasal Passages, Allays Pain and Inflammation, Heals the Sores, protects the Membrane from Cold, Restores the Senses of Taste and Smell. The Balm is quickly absorbed and gives relief at once. Price 50 cents at Druggists or by mail. ELY BROTHERS, 56 Warren St., New York.

MINERAL MAGNETIC WELL SANITARIUM

This Institution has been refitted with all Modern Improvements, an 800-barrel storage tank and a new distributing tank having just been completed, making this institution one of the best. Expert Masseurs in attendance.

Take Findlay, Fort Wayne & Western trains at South Depot for Sanitarium. Ten minutes' ride.

6:30 a. m. } East. | 10:25 a. m. } West.
3:00 p. m. } | 5:45 p. m. }

HOUSEHOLD GOODS.

Cash paid for used Furniture, Carpets and Stoves. Entire Furniture of hotels and private residences a specialty.

BARGAIN STORE,
28 West Main Street.

The Perfume of Violets

The purity of the lily, the glow of the rose, and the flush of Hebe combine in Pozzoni's wondrous Powder.

The Evening Sentinel.

BY E. A. K. HACKETT.

THURSDAY, MAY 2, 1895

TONIGHT.

MASONIC TEMPLE—Poses Plastique.
WAYNE TRUE BLUES—Regular meeting.
FREE LECTURE—Mrs. Kate Forman at Berry Street M. E. Church.
ANNIE BESANT THEOSOPHICAL SOCIETY—Regular meeting.
OCCULT SCIENCE SOCIETY—Regular meeting.
TRADES UNIONS—K. of L.; Cigarmakers'; Tinworkers.
LODGES—A. O. U. W., No. 30; Knights of Maccabees; Harmony Lodge No. 19, I. O. O. F.; Knights of the Golden Eagle.

ALREADY there have been more train robberies in 1895 than for the entire year in either 1890, 1891 or 1892.

BUFFALO is the latest city to adopt the Pingree plan of potato patch farming for the poor. Mayor Jewett has forced a committee to raise $5,000 for the scheme.

THE governor of New York has signed a bill creating the office of state historian, and has nominated a newspaper man for the place for a term of four years. The salary is $4,000.

THE county, city and town health officers of the state began a two days' session at Indianapolis this afternoon. Among the subjects set down for discussion are drainage and sewerage, school sanitation, laws and rules relating to public health, municipal and domestic cleanliness, contagious and infectious diseases, burial precautions and prevention of tuberculosis.

THERE is no danger that the supply of cigarettes will be exhausted. A telegram from Washington says: "There was a contest before Commissioner Seymour yesterday as to the ownership of a patent for a cigarettes making machine that is warranted to make five miles of cigarettes per day. The tobacco is spun out in an endless rope and fitted into an endless roll of paper and is then cut into the proper lengths."

THE individual who accepts all the theories that are being advanced on the money question, pro and con, is pretty certain to become badly muddled. More than one-half of the stuff that is being inflicted upon the public just now is utterly fallacious and untenable. There are certain facts and truths that cannot be brushed aside, and the man who holds fast to these, regardless of the theories and fancies of ultra disputants, will find himself on a solid footing.

OVER at Tiffin, in the Buckeye state, the pupils of the public schools are making progress in natural history. "How many toes has a cat?" was one of the questions asked during a recent examination. Nobody knew. The principal was asked and he didn't know. One of the teachers concluded not to be baffled concerning such an important piece of information and a number of boys were dispatched on a cat hunt. They soon returned bearing a feline subject for an object lesson. A returning board was appointed and the toes counted, when it was found that a cat has eighteen toes, ten on the front feet and eight on the hind feet.

THE Chickamauga park commission completed the purchase at the north end of Missionary Ridge, Chattanooga, and it now becomes a part of the National Military park. The tract contains fifty acres and embraces the ground of assault of the army of the Tennessee and the positions about Tunnel Hill defended by General Bragg's army. The central drive of the National park, twenty miles in length, has already been completed to and through the tract thus purchased, and historical tablets, batteries and monuments will be erected upon it before the dedication of September next.

IN view of the approaching election in many of the towns of the state, many inquiries are being made of state officers as to what changes, if any, were made in the election law. Deputy Secretary of State Wright, who has handled all the acts as they have gone to the state printer, says that no changes were made in the law. Letters received by the state officers indicate that in many localities there is an impression that several changes were made in the law. Several bills providing for amendments did pass the house, but none of them got through the senate. Even the amendments prepared by Chairman Gowdy, of the republican state committee, were allowed to die in the senate.

The greater part of the minor offices under the city government in Chicago are within a few weeks to be put under the civil service rules. Then a good man will be retained irrespective of his political fait and his agility as a ward worker. No one can dispute for a moment the wisdom of such a course, and no careful observer of the trend of events can doubt that the country is leading to the adoption of civil service in all the departments of municipal and state governments. There is not an executive officer of any integrity or intelligence who will deny that it is the best solution of the spoils evil. The people who ten years ago sneered at the man who advocated civil service are now recognizing its merit, because it gives us a better class of public servants.

Some Future Statesmen.

Evidently they will come from Wisconsin. The Review of Reviews has had its eye on this fine western state for some time and finds that the students of Wisconsin university are perhaps the leading debaters among the college boys of this country. They do not discuss frivolous matters either. This year the two leading literary societies had a debating contest. They discussed a question congress itself has been unable to decide. That was whether our present national banking system is the best for the country or whether a great government banking system would not be better, the government alone having power to issue bank notes and circulate them. In that case there would be one great national bank, with branches in the cities.

The boys ferreted out facts through the ages that bore on the case. Their fund of information would have made many a congressman feel his ignorance. The Review of Reviews says of this manly and intellectually invigorating work:

> It seems to us that the extent to which our college students carry their athletic contests is chiefly an indication of their splendid vigor and enthusiasm. The young men of the University of Wisconsin show precisely that same quality of unabated ardor in their long and rigorous training for the annual debates. Last year they discussed the question of national ownership and operation of American railroads. In 1893 their debate was upon municipal operation of lighting works and street railways. In 1892 they discussed the expediency of international bimetallism. In 1891 their topic was the desirability of the prohibition of foreign immigration for a definite period. In 1890 they argued the question whether or not the tariff laws of the United States should be so modified as to put us upon a purely revenue basis by the year 1900. These annual debates have been going on in the University of Wisconsin for about 25 years. Probably the majority of the young men who have participated in them would testify that the reading and study which they undertook in connection with preparation for the debate of their particular year were the most valuable and formative thing in their college education.

Curfew Bell Works Well.

Already several other cities have adopted the famous "curfew" ordinance which has wrought such a revolution in favor of law and order in Stillwater, Minn. The terror and nuisance of cities large and small are the gangs of lawless boys that hang upon its streets in the evening, throwing stones, fighting and using foul and blasphemous language in the ears of passersby. Not seldom they are thieves. They stone windows and destroy property. They grow bolder by immunity from punishment and in a few years develop into gangs of burglars, who do not stop at even murder.

Stillwater had her share of these young miscreants. The ordinance passed by her city council to abolish declared it unlawful for any boy or girl under 16 to be on the streets without parent or guardian after 9 o'clock at night unless sent on some errand, and then it must be a clear case, and the boy or girl must go quickly and quietly about his or her business. Penalties were duly affixed for violation of the ordinance. To notify all concerned when the hour for going indoors had arrived the city fire bell rings "nine slow taps consecutively."

The measure worked like magic. It has abolished the gangs of young desperadoes that formerly made evening hideous. Night hoodlums have vanished from the streets of Stillwater.

If King Oscar of Sweden had only been able to view his subjects all as one people without discriminating constantly in favor of Swedes against Norwegians in the distribution of offices and appointments, the present enmities and jealousies might not have broken out. But the descendants of the red haired and golden haired vikings grew tired of being classed as Swedes and seeing their ancient name and fame obscured altogether. They asked among other things that Norwegian consuls might represent them in foreign ports. This was refused. It was only human that they should make a disturbance about it after awhile.

End of the nineteenth century features—bicycle and trolley.

Trade Winners! Dollar Savers! Value Givers!

OUR

2,000 BLACK SUITS At Tariff Reform Prices!

$7.50, $8, $10, $12 and $15.00. Every Suit actually Worth From 20 to 30 Per Ct. More!

FACTS are those—We encountered a needy manufacturer. Ready cash cuts quite a figure in a case of this kind. We were in a position to make the exchange. Rest is soon told.

We inaugurate May 1st a BLACK SUIT Sale, which will eclipse all previous efforts. Clays, Cheviots, Serges, Unfinished Worsteds, &c., Every Suit Tailored to Perfection. You won't buy them at these prices in Ninety days.

Just Drop In and Look Them Over.

Our Children's Department continues a Busy Hive of Industry; It's not surprising if you consider Make, Quality and Price.

An elegant quality Rubber Foot Ball with every Child's Suit at $2.50 or over.

Our Straw Hat Department Filled to Overflowing with the Choicest of This Season's Production. You save money on every Hat you buy of US.

Values beyond question. Your money back if Goods are not Satisfactory.

OPEN EVENINGS.

'TIS YET SPRING.

May, the Last of the Three Great Months

The Close of Nature's Yearly Revival Season.

Recovery is Now the Most Rapid and Lasting.

Paine's Celery Compound Makes Vigorous Nerves.

It Purifies the Blood as Nothing Else Can Possibly Do.

As a spring remedy, Paine's celery compound stands easily first in the careful judgment of the physicians of this country.

This remarkable discovery of Prof. Edward E. Phelps, M. D., LL. D., of Dartmouth college, is in fact so certainly first in the estimation of thinking men and women in every calling throughout the United States today that there can fairly be said to be no second.

For strengthening the sick, restoring the spent energies of those who have become nervously exhausted, for purifying the blood and making people well, Paine's celery compound has never yet been approached by any sarsaparilla, tonic or nervine. It is as superior to them all as strength is superior to weakness. The remarkable results from the use of this great remedy are today known at first hand in every city and village in America.

The people are today thoroughly satisfied by personal experience that Paine's celery compound makes people well.

Where the nerves have not been properly fed and neuralgia, nervousness, inability to sleep, rheumatism and such evidences of debility have entered, Paine's celery compound has created a new appetite, restored lost strength and given courage, new blood, and a strong, healthy will to live and get well. Try it.

SOCIETY'S AFFAIRS.

What is Going on in the City's Social Circles.

Entertainment to be Given by the A. O. U. W.—Some Club Notes and Other Items of Interest.

Mr. and Mrs. G. D. Crane will leave Saturday for Chicago for a few weeks' visit.

Mrs. Ida Agster, of Lima, Ohio, is the guest of Mrs. P. E. Pickard, of East Berry street.

Miss Mary Library has returned from a few days' visit at Indianapolis with Miss Ellen Spencer.

Mr. and Mrs. John Ferguson and Mr. and Mrs. Earl Palmer are spending a week in Wisconsin.

Harry M. Williams, wife and baby have returned from Indianapolis, where they had been on a visit.

Tomorrow evening a library social will be given at the First Baptist church by the Y. P. S. C. E.

Mrs. Fred Doenges, of East Washington street, very pleasantly celebrated her birthday yesterday.

Mrs. A. D. Link and mother, Mrs. D. L. Starkey, returned yesterday from Toledo, where they have been spending a week.

Miss Mamie Clugston, who has been the guest of Miss Emma Buchman for a few weeks, returned to Bluffton yesterday.

The Sewing society of the Wayne street M. E. church will serve dinner in the church parlors tomorrow, from 12 to 2 o'clock.

Mrs. William Sperry and daughter, Miss Lavon, left yesterday for Battle Creek, Mich., where Miss Sperry will visit for several weeks.

Dr. and Mrs George Keel, who are the guests of Mr. and Mrs. A. G. Keel, will leave tomorrow for Northern Michigan to spend several weeks.

Mrs. A. G. Estry and mother, of 432 Broadway, left this morning on Pittsburg No 4 to visit friends and relatives in Allegheny, Butler and Callensburg, Pa.

Miss Mary Houser, who has been making her home with her grandparents at Williamsport, is in this city, the guest of her parents on Lake avenue, Lakeside.

Fort Wayne Hive No. 6, Ladies of the Maccabees, will give a social at the home of Mrs. E. M. Straight, No. 54 West Washington street, Tuesday evening, May 7.

The annual meeting of the Y. W. C. A. will be held at the rooms Tuesday evening, May 7th, at 8 o'clock. After the transaction of business there will be a social and light refreshments will be served. All are cordially invited.

Mr. Theodore Arnold, wife and daughter, of Chicago, arrived in the city last evening. They will be the guests of Mrs. Fred Eckert for a time, preparatory to a trip to Europe. Mr. Arnold is in the pork packing business at Chicago. Miss Eckert will accompany them on their European trip.

The U. L. and S. club met last evening at the home of Mr. and Mrs. Daniel Wallace, on Melita street, and elected the following officers: President, Mrs. Arbell Young; vice president, Daniel Wallace; secretary, Mrs. Nena Black; assistant secretary, Mrs. Eddie Williams; treasurer, Robert Hill; critic, Harry Young.

Mrs. Kate E. Putnam will deliver three free lectures at the Berry street M. E. church, viz: Thursday, May 2, at 7:30 p. m.; subject, "The Keynote of Our Opportunity." Friday, May 3, at 2:30 p. m.; subject, "Motherhood." Saturday, May 4, at 10 a. m.; subject, "Nerves and Nervousness." The ladies of Fort Wayne are cordially invited.

Miss Augusta Legeman, of St. Martin street, will celebrate the twentieth anniversary of her birth tomorrow evening by entertaining a number of her friends. Music will be on hand and dancing will be indulged in.

The Young Irish-Americans gave their second annual reception at the Sons of Columbus hall last evening. The grand march was led by Mr. P. J. Greaney and Miss Mary Getty and Mr. E. P. Schrantz and Miss Annie Getty.

Last evening Mr. and Mrs. J. B. Hunting celebrated the sixth anniversary of their wedding by entertaining a few friends at their home, on West Washington street. Among the guests were Mr. and Mrs. W. A. Davis, Mr. and Mrs. Thomas Duncan, Miss Nellie Richey, Mr. and Mrs. Henry Wolfe and Mr. Arthur Hadley.

Mrs. Lincoln entertained the Woman's Foreign Missionary society of the Berry street M. E. church this afternoon from 3 to 5 in the church parlors. The program included responsive reading, led by Mrs. Geerken, a paper on "Sumatra, Paragua and Thibet," a solo by Miss Mamie Stemen, a select reading by Mrs. Arlinger and a poem by Miss Mattie Wohlfort.

Mr. Daniel Willett, of Rockford, Ohio, and Miss Mina Allison, of this city, were married last evening in the parlors of the Rich hotel. The ceremony was performed by Rev. Stephen A. Northrop. The happy pair left this morning for a wedding trip through the west. They will reside at Rockford. Mr. Willet holds a county office at that place and has a beautiful home awaiting his bride.

A grand rally for the little folks will be held at the Plymouth Congregational church tomorrow (Friday) evening, May 3. Supper for the church Sunday school children under twelve years of age will be served at 5:30. Games and amusements of various sorts will occupy the time until 7:30 when the little ones will give a short entertainment, consisting of a boys' drill, Quaker drill, a goodnight drill, songs, etc. Ice cream and cake will be served during the evening. All the members of the church and their friends are invited to come and help the children have a royal good time.

Tomorrow evening, at their hall, corner Calhoun and Superior streets, the members of Summit City lodge, No. 30, A. O. U. W., will give an entertainment and social and a grand time is assured. This is not the first undertaking of its character for No. 30, the lodge having upon several different occasions royally entertained a room full of guests. This fact assures the arrangement committee that a large audience will be present during the rendition of the following

PROGRAM.

CONVENTION OF CLUBS.

The programs for the sixth annual convention of the Indiana Union of Literary clubs have appeared from the hands of the printer. The convention will be held in Library hall, Huntington, May 14, 15 and 16. Mrs. Virginia C. Meredith, of Cambridge City, is president of the union. The vice-presidents are J. E. Iliff, of Richmond, and the presidents of all the constituent clubs. On the program committee are Miss Katharine Merrill and the Rev. Dr. N. A. Hyde, of Indianapolis; Mrs. A. B. Milford, of Crawfordsville; Mrs. A. D. Gulld, of this city, and Mr. Martin W. Sampson, of Bloomington. Visiting officers and delegates will be entertained during the convention by the clubs of Huntington. A feature of the convention will be the exhibition of pictures by Messrs. Steele, Forsyth, Gruelle, Adams and Stark, which will be hung in the hall.

On Tuesday afternoon Mrs. Ellen R. Bursley, of this city, will lead the discussion on "Practical Hints for Efficient Club Work." On Wednesday afternoon Miss Lillie Beaber, of the Students' Art league, of this city, will open the discussion following the paper read by Mr. T. C. Steele, of Indianapolis, on "The Tendencies of Modern Art." The Morning musical, of this city, will also participate in the program.

GOOD TIDINGS FOR MANY.

Producing Fever in a Patient Said to Result in Sound Mental Condition.

An eminent physician of Vienna, Professor Wagner von Jauregg, has made a discovery which gives promise of certain cure in many cases of insanity. Medical science has always been in the dark when it undertook the treatment of mental diseases. Any remedy the favorable working of which can be foreseen and understood is a novelty and of inestimable value.

Professor Jauregg's discovery, in short, amounts to this—that fever is the remedy provided by nature for many and the most common forms of insanity. He and a colleague have satisfied themselves that insanity may be cured by fever produced artificially.

The professor made public his theory and his investigations at a meeting recently of the Society of Physicians of Vienna.

The principal object of his address, he said, was to make them acquainted with certain experiments he had made in his clinic at Graz.

He had been studying for six or seven years, with the object of making fever useful in these cases. The discovery of Koch's tuberculine appeared to supply him with the means he has lacked for producing artificially the results of bacterial illness or fever, without causing the patient to undergo the danger of the illness itself.

In the winter of 1890-1, in the Psychiatric clinic, at Graz, he made experiments with tuberculine on the insane. In several cases he had obtained favorable results, and in two cases rapid and complete recovery took place.—New York World.

THE SILVER QUESTION.

Charles H. Bliss, Editor of the Auburn Times,

Answer the Article Which Appeared in "The Sentinel" Over Hon. Chas. McCulloch's Signature.

Editor SENTINEL:

In your issue of Tuesday, Mr. Charles McCulloch attempts to tell the people the meaning of "standard" as applied to currency, and sound the danger signal in regard to free silver. The article is lame in the point that it accomplishes neither.

There is nothing difficult to understand in regard to the term "standard" when shorn of the bewildering sophistries placed around it by false economists. "Standard" relates to measurement. The yard is the "standard" of linear measure and is fixed by law, not fixed by the material of which the yard-stick is made. The "standard" of avoirdupois weight is the avoirdupois pound, fixed by law and not fixed by the material of which the scales may be made. It matters not whether the scales be gold, silver, brass or cast iron. The "standard" of money is the dollar and is fixed by law, not fixed by the amount of metal or paper that the dollar contains. The dollar is one thing; the material of which it is made is another. One is a creation of law; the other the creation of nature. One depends on the law for its value; the other on the markets of the world. Senator Sherman once declared that the government could take ten grains of silver and make it into a dollar, or that it could coin pot-metal into dollars. A dollar is the creation of law, and never was or ever can be created in any other way.

The act of Congress, April 2, 1792, established the "standard" for money. It made the dollar the unit of measurement. It then defined that the unit of measurement was to consist of a silver dollar of a certain weight and fineness and bearing certain inscriptions, etc. For nearly eighty-one years this standard existed, a silver standard, if you please, and gold was the "depreciated" currency, if that term be applicable to silver now.

In 1873 the silver dollar was dropped and the law made the gold dollar of a certain weight and fineness the "standard" of money measurement. The "standard" is fixed by law, and if the law says the present silver dollar shall be the "standard," or unit of measurement, then it is the "standard" and no power on earth can go back of it.

But, Mr. Editor, all this talk about "standard" is "beating about the bush." The silver men do not fight for a "silver standard;" neither do they care so much about the "gold standard." What they are fighting is the "gold" basis, a system in which silver money and all other money is redeemable in gold. Free coinage men do not want a silver basis, as is imputed to them by the gold basis advocates; neither are they opposed to gold money. What free coinage men want is the free coinage of silver on equal terms with gold. Make silver money and gold money equal before the law, and give to silver bullion the same privileges that gold enjoys and has enjoyed for over a century in our mints, and the much talked of "parity" will be restored and sustained.

Mr. McCulloch would fain make us believe that our silver dollars are only worth about fifty cents in the markets of the world. Such is not the fact. He tells how a gentleman exchanged a ten dollar gold coin for twenty Mexican dollars. He omitted to state that the United States silver dollars would do the same thing. United States silver dollars pass for a dollar in every port in the world where American vessels land. So also does our paper. It is not the silver metal that the people are looking at, but the *money*. Mr. McCulloch will not say that United States silver dollars can be purchased anywhere in the world for fifty cents. He knows they cannot. If United States silver dollars could be purchased in England, Germany, or other foreign countries at even 90 or 95 cents they would be bought up and brought here by importers to pay import duties.

Why is it that a United States silver dollar will buy two Mexican dollars of the same size? Simply because it is the *dollar* that is being exchanged, and not the metal of which the dollar is made. Strike the United States dollar with a hammer and it will not buy two silver Mexican dollars. A dollar is made by law, and is always as good as the law-making power. What the Mexican dollar needs is a strong government behind it. Let Mexico be admitted into the sisterhood of States, and the United States government put back of her money, then a ten dollar bill will no longer purchase twenty silver dollars.

Silver and gold coin depend upon the law for their legal value; their metallic value depends upon the markets of the world. The law establishing the *free and unlimited* coinage of gold establishes an "unlimited" market for gold at a certain figure and so long as the market remains gold cannot fall in value. The same law established the free and unlimited coinage of silver, which of course established an "unlimited" market for silver and as long as that market existed—1792 to 1873—silver remained at parity. In 1873 the unlimited market for silver was destroyed in the United States, then in Germany, and subsequently in other nations. The market being destroyed, silver fell in value as a matter of consequence. To restore the value of silver it is necessary to restore the market. The only thing in the world that can restore the "parity of the two metals" is to restore the "unlimited" market that fixes their value. But the gold basis advocates tell us they expect to restore the "parity" by "bearing" down and destroying the silver market. They expect to go to San Francisco by continually traveling toward London. It cannot be done.

There is no use for gold basis men to sound the alarm. The battle has begun and all the powers of the gold basis men cannot prevent the American people from restoring the silver dollar to its equality with gold before the law, and giving silver metal the same privileges that gold metal has at the mints.

CHARLES H. BLISS.

French Youth Breaking Bonds.

The new amendment to the French marriage law proposes to declare that all Frenchmen who have attained the age of 25 and women who have attained the age of 21 shall be free to marry after giving three months' notice to their parents.—New York World.

Especially In Kentucky.

An enterprising individual has got out a "Manual For Hallboys," in the interests of hotels. One of the first directions which is pointed out as necessary for the model hallboy to follow is, "Always carry a corkscrew."—New Orleans Times-Democrat.

The Fashion In Rome.

Mgr. del Val, the son of a well known Spanish diplomat, is at present the fashionable preacher in Rome.—New York Tribune.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at Rives Junction, she was brought down with pneumonia, succeeding la grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at Dreier & Bro.'s Drug Store. Regular size, 50c and $1.00.

Four Big Successes.

Having the needed merit to more than make good all the advertising claimed for them, the following four remedies have reached a phenomenal sale. Dr. King's New Discovery, for consumption, coughs and colds, each bottle guaranteed; Electric Bitters, the great remedy for liver, stomach and kidneys; Bucklen's Arnica Salve, the best in the world, and Dr. King's New Life Pills, which are a perfect pill. All these remedies are guaranteed to do just what is claimed for them and the dealer whose name is attached herewith will be glad to tell you more of them. Sold at Dreier & Bro.'s Drug Store.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Dreier & Bro.

THE WRONG MEDICINE.

Thousands of people yearly treat their ails with the wrong medicine. They are in the habit of jumping at the first "cure all" they see advertised and fancy they are going to be benefited. People should use more caution in selecting their medicines. These are times when the country is flooded with the printed boasts of experimenters. Those who have piles in any form cannot be too careful in its treatment. The delicate membranes may receive injuries from humbug remedies that will lead to the most complicated eruptions. Pyramid Pile Cure is the safest remedy known to medical science. It purifies the affected parts, reduces the tumors and takes away the inflammation. If you are troubled try it. It is prepared by the most skilled specialists who have made the curing of piles and kindred troubles a life study. It is now the best known pile remedy before the public. Thousands have been cured who had experimented for years with every other known remedy. Hundreds who have been treated surgically without results have been completely cured by Pyramid Pile Cure. Don't experiment with dangerous drugs nor run the risk of a painful surgical operation. This remedy is a prompt, perfect and permanent cure for the most persistent case of piles. It is manufactured by the Pyramid Drug Co. at Albion, Mich., and has found its way into nearly every wide-awake drug store on this continent. Your druggist no doubt has it. Ask for it and be cured of a disease which may lead to fatal complications.

PIPER HEIDSIECK PLUG TOBACCO.

Consumers of chewing tobacco who are willing to pay a little more than the price charged for the ordinary trade tobaccos, will find this brand superior to all others

BEWARE OF IMITATIONS.

DR. E. C. WEST'S NERVE AND BRAIN TREATMENT is sold under positive written guarantee, by authorized agents only, to cure Weak Memory; Loss of Brain and Nerve Power; Lost Manhood; Quickness; Night Losses; Evil Dreams; Lack of Confidence; Nervousness; Lassitude; all Drains; Loss of Power of the Generative Organs in either sex, caused by over-exertion, Youthful Errors, or Excessive Use of Tobacco, Opium or Liquor, which leads to Misery, Consumption, Insanity and Death. By mail, $1 a box; six for $5; with written guarantee to cure or refund money. Sample package, containing five days' treatment, with full instructions, 25 cents. One sample only sold to each person by mail.

Sipper: Well you idiot, why don't you get another doctor?

RAILWAYS AND SHOPS.

The Nickel Plate Officers Pay Us a Short Visit.

An Engineer Talks Intelligently Upon High Speed—News About the Shops Very Scarce.

The Nickel Plate officials are now out on an inspection tour and were in this city yesterday afternoon and a portion of last night. They came in on a special train from Bellevue and left for Stony Island at 2 o'clock this morning in their private car, attached to No. 1. In the party were Gen. Supt. A. W. Johnson, Superintendent of Motive Power John McKinzie, Master Mechanic George James, Division Supt. C. D. Gorham and Engineer of Maintenance of Way G. W. Vaughan. The train which brought the party from Bellevue was in charge of Conductor W. Harper, with Engineer C. Sliter at the throttle.

THE HIGHEST SPEED NOT YET ATTAINABLE.

Indianapolis Journal: "A number of railway men were yesterday conversing on fast trains, the subject having come up in speaking of the remarkable run made on Tuesday on the Pennsylvania road, where some distance was covered at a speed of eighty-three miles an hour, and a single mile was run in forty-one seconds, or eighty-seven and eight-tenths miles per hour. An engineer who was in the company said he had no doubt that equipment and roadbed would yet be so improved that a speed of one hundred miles an hour will be reached with safety. 'There is still room for improvement,' he said, 'to roadbeds in a permanent way. Chief engineers do not give the question of fastening the rail to the tie the attention it should have. Another coming improvement will be the doing away with all wooden structures, such as culverts, trestles and bridges, and the bridge of the future, large or small, should be so constructed as to permit the deposit on it of the usual ballast and track. Grade crossings of highways will be abolished and stations so arranged that it will not be necessary for a passenger to walk across or upon the tracks. Grade crossings of one road with another or of branch lines connecting with the main stem crossing or main track should be abolished before such speed is undertaken.' The speaker expressed himself as satisfied that, with absolutely reliable signaling apparatus, grade crossings eliminated, an improved track and an alignment free from sharp curves, the performance of the present locomotive gives warrant for the belief that one hundred miles an hour will in the future be made as easily as sixty miles an hour under present track and equipment conditions. Possibly railway trains will be planned on lines calculated for wind resistance, very much as the lines of a yacht are calculated for resistance of the sea. The electric headlight and the lighting of trains by electricity would still further decrease the element of risk in running at such high speed, and competition between the strong lines of the country would, he thought, bring about the improvements suggested."

BRIEF MENTION.

Nels Crawford, of the electric works, is sick.

F. Lewis, fireman on the Pittsburg road, is sick.

Walter Adams, machinist at the Bass works, is sick.

Andrew Taylor, a brass moulder at the Wabash shops, is sick.

John Zollars has taken a position at the east car shops as a coach cleaner.

Brainerd Rorison left for New York last night, on business for the electric works.

Nickel Plate Conductor J. Hibbinger is taking a lay off to attend to personal affairs.

G. F. Strawbridge is in Chicago in the interest of the Bass Foundry and Machine works.

Engineer Hooper and Fireman Brumfield, of Nickel Plate engine 89, are taking a short vacation.

Foreman A. E. Rohling, of the Wabash boiler shop, is sick, and E. F. Noedham is acting foreman.

Nickel Plate Fireman Dougherty, who was off several days, resumed his duties on the road this morning.

Harry Whittles, of the Nickel Plate round house, went to Rome City this morning to spend a few days in fishing.

Engineer George Quidore, of the west Nickel Plate local, is taking a vacation and Engineer Hughes has taken the run.

George M. Pullman occupied a compartment car on the Pennsylvania limited this morning, en route to Chicago.

The passenger earnings of the Lake Erie and Western for April were nearly $10,000 in excess of those of April, 1894.

Foreman John Kreisinger resumed charge of affairs at the Pittsburg planing mills this morning, after a weeks' absence.

The firemen's Magazine for May, which has just been issued, contains a description of the Pennsylvania shops at Altoona.

Superintendent G. L. Potter has returned from the south, where he left Captain Hettler and Mr. Graham to continue the investigation into the timber question.

J. M. Bessell, purchasing agent of the Standard Wheel works, will in two weeks commence the erection of a house in South Wayne, upon a lot he has owned for several years.

The Lake Erie and Western is first in the field for a Niagara Falls excursion, General Passenger Agent Daly having fixed upon August 4 as the date of the first Niagara Falls excursion.

Fireman Murray, of the Nickel Plate, received a dispatch yesterday informing him of the serious illness of his sister, who resides in Hillsdale, Mich. He went up to that city last night.

George Karter, who during the winter and spring had been employed at the Standard Wheel works, quit that establishment yesterday to engage at his trade, that of house building.

A. D. Adams, roadmaster of the Wabash, came up from Peru yesterday and took the Grand Rapids train for La Otto, where he will commence an inspection tour of the Eel River line.

Mr. and Mrs. Henry Hille will leave about June 1 for Germany, where they will spend several months renewing old acquaintances and visiting relatives. Mr. Hille is employed in the Wabash shops.

Fred Parker, Wabash yard fireman, has taken a thirty days' leave of absence to visit his mother at Ottumwa, Iowa. During his absence Matt Klaren, roundhouse hostler, will fire on engine 39.

Perry Rogers has just completed his twenty-fifth year as traveling car agent of the Pennsylvania road. During the time he traveled 1,750,000 miles, and in doing it had paid out for transportation less than $5.

The locomotive which made the great run last week on the Pennsylvania was of the new class P type recently constructed at the Altoona shops, having eighty-inch driving wheels, with steam pressure of 190 pounds.

It is claimed that the Chicago, Burlington and Quincy owns the most valuable terminals in St. Louis of any road having a terminal there. It cost the company $5,000,000, and is, it is stated, worth double that amount.

Operator L. R. Collins spent a few hours with his old friends here yesterday. He is now stationed at Leipsic Junction, Ohio, and is still in the service of the Nickel Plate. Mr. Collins worked in the company's offices in this city last winter.

Thomas Tooley, who was the guest of his brother-in-law, Machinist Charley Cook, several days, returned to his home in Chicago yesterday. Tom holds a good position in the Windy City, being "boss" of the painters for a street car company.

This evening about 5:30 one of Whitcomb & Riley's western excursion parties will pass over the Nickel Plate, en route home from California. The train left Chicago at 1:30 this afternoon. It is a big one, consisting of eight sleepers and two baggage cars.

The Illinois steel rail mills have contracts on hand which will keep them busy for five months, full handed and full time. The Missouri, Kansas and Texas has just closed a contract for 8,000 tons of seventy-five pounds to the yard rail to be laid on its main line.

There are six sewers now under construction in the south part of the city. Every alley south of Leith street is torn up. A good portion of the work on alley sewers is now done by horse power, where a few years ago it was entirely done by the pick and shovel. The new method is quicker and cheaper.

But few people are aware of the facts which led to the invention of the useful car seat lock. Before their invention selfish people caused conductors and brakemen considerable annoyance by appropriating double seats. George McGregor, now an inmate of the Odd Fellows' Home at Cincinnati, when on a trip, saw the importance of such a device, and, being a locksmith, returned home and perfected the idea he had formed for such a lock. After making several unsuccessful attempts to place it on the market he sold the patent for a pittance, and the purchaser has realized a handsome fortune from it.

Engineer Crosby and Fireman Freese, of the Nickel Plate, were fishing at Arnold's gravel pit yesterday. They sent word to a number of their friends to meet them at the west yards when the local came in and receive a share of the fish. But, alas, in an unguarded moment the minnow bucket was upset by the sudden movement of the caboose and the fish all crawled away.

H. G. Parker, traffic manager of the Lake Erie and Western, has just completed a visit to the country which furnishes the line its chief business. He states that he never saw better crop prospects the last of April than those of this year. The wheat is unusually promising and farmers are very busy planting corn in this state and in Illinois. He thinks eastbound rates are now being fairly well maintained, but he does not expect a strict maintenance of rates until it is the understanding on the part of the presidents that the cutting of the rate means the dismissal of the representative of the road which cut the rate.

BEER IN ALASKA.

Its Manufacture There Now a Matter of Dispute.

Two Parties Have Breweries Ready to Set in Operation as Soon as They Secure Licenses.

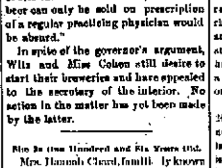

WASHINGTON, May 2.—For sometime the interior department has been carrying on a complicated correspondence in regard to the licensing of the manufacture of beer in Alaska. Two persons of Sitka, Miss Paulina Cohen and R. Wilz, have complied with all the internal revenue regulations for such work, and would have had their breweries in operation before now but for the refusal of Governor Sheakley to issue the necessary permits. The last letter in the correspondence shows his reasons for this refusal, the matter resting entirely in his discretion. He says: "The executive order concerning the sale of intoxicating liquors in Alaska for medical, mechanical and scientific purposes, is of such a restrictive character as to render its operation almost impracticable. To license a brewery to manufacture beer for these purposes in the village of Sitka, a town of less than 400 inhabitants, where the beer can only be sold on prescription of a regular practicing physician would be absurd."

In spite of the governor's argument, Wilz and Miss Cohen still desire to start their breweries and have appealed to the secretary of the interior. No action in the matter has yet been made by the latter.

She Is One Hundred and Six Years Old.

Mrs. Hannah Chard, familiarly known as "Aunt Hannah," celebrated her one hundred and sixth birthday at her home in Fesrel, N. J., recently. Three sons, the youngest of whom is 70 years old; 33 grandchildren, 82 great grandchildren and 12 great great grandchildren were present at the celebration. Aunt Hannah is in perfect health, strong in body and sound in mind, and personally directs her household affairs.—Philadelphia Ledger.

SYRUP of FIGS

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 50c and $1 bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder

ABSOLUTELY PURE

TO END THE DROUTH.

Prophet Hicks Promises All Kinds of Weather for May.

Showers, Rains, Waterspouts, Frosts and Hailstorms are Predicted for the Month.

April showers failed to materialize in the month just ended, but Weather Prophet Hicks purposes to even things up by giving us a number of waterspouts in May. In his predictions he says: "May opens at the beginning of a storm period—hence with a falling barometer and a warm wave advancing from western sections. On, or not many hours either way from the 3d—the date of moon's perigee—violent atmospheric and electrical perturbations may be expected. Wind, with rain, hail and thunder will visit many sections. Change to much cooler, with possible frost in the north, will follow with the high barometer and westerly winds that set in behind the storm areas. On and about the 8th and 9th, a marked change to warmer, with other storm conditions, will set in, and many active storms will transpire not far from the time of the full moon. From about the 9th to 13th, another sharp change to cooler will be the order, and for two or three nights light frosts are probable, even in central parts of the country. A regular storm period sets in about the 13th, and extends beyond the central day of the Jupiter equinox on the 17th. Storms at this time, and indeed, throughout the month, will have a tendency to gather into intense centers of limited area, and enormous cloudbursts and waterspouts will be reported causing many sudden local floods. Storms all through this part of the month will have a tendency to repeat themselves in cycles of twelve and twenty-four hours. After storm paroxysms have passed, if barometer does not begin to rise, and wind currents do not blow decidedly from the west, another storm is apt to pass, within the limits of twenty-four hours. A reactionary low barometer, with smart rise in temperature, ending in storms, and pass eastward over the country on and touching the 20th and 21st. Rain, hail, wind and thunder, followed by a brief change to cooler, will be the order.

A Venus period begins about the 24th, and on the same date falls the new moon and the beginning of a regular storm period. The moon's perigee is on the 28th. Mercury's disturbance begins about the 29th, and a reactionary disturbance with moon at first quarter closes the month. In all reasonable probability, many very heavy disturbances will transpire from about the 24th to 28th, with the chances good for a continuation of rains and storms until the close of the month."

The Only Remedy.

Those who suffer from foul breath are open to the charge of carelessness. It is an offense that can be speedily abated, as a single bottle of the fragrant SOZODONT will unmistakably accomplish the work. It will preserve and keep the teeth white, and the breath pure and sweet.

A party of Dayton gentlemen composed of Messrs. X. Hanner, Robert Somerville, J. H. Gorman and William Kreger, are the guests of Frank Beloit, the Calhoun street tobacconist.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

BOYS KNOW A GOOD THING!

That's Why They Rush to Our Store for Their New Spring Clothes.

The Stock is large enough to stand a rush, and the CLOTHING is strong enough to stand both rushing and romping after the boy gets inside of it.

We not only study to please the BOY, but his FATHER and MOTHER as well, hence our

BOY CLOTHING

Is the sort that will stand Hard Knocks, no matter how Lively the Youngster. Clothes have an influence on Character. Dress a Boy Shabbily, and he's apt to Act Shabby; Dress him well, and you'll make a man of him. Let us show you what Good, Strong, Well-Made, Lively Boy Clothing we have for a Little Money.

Base Ball and Bat FREE With Every Suit.

Clothiers, Hatters and Furnishers.

Globe

CORNER CALHOUN and MAIN Sts.

What Counts?

Value in Clothing — Dependable Quality, Workmanship, Price, Style and Fit — Correct

Look at our Stock. Everything bright as a new pin. No sluggish lots. No time to waste over getting big profits this season. Our go in business is all low price go.

Look up what you bought and paid last year,
Last year's prices are quaking everywhere.

The Turn in prices this season isn't just from one cause. True, wool is lower; two other things are lower. The great price-maker with us is Spot Cash buying direct from the maker.

Twist and turn as they may—stores must come down.
We've led the way in lowering prices cheerfully.

PIXLEY & CO.

SPRING TIME

NEVER was there such a superior showing of Furniture. Never was there such richness in Carpets, such wealth in styles, such beauty in creation as is now shown by us. BUT THEN IT'S CHARACTERISTIC OF US to exhibit everything worth having. Most of the styles we show are not to be seen in any other establishment in this city or any where else, for we are continually apprised of new originations, and when they're good invariably appropriate them to ourselves. We think there's no stock in this section of the land that closely competes with ours, in magnitude or economy to buyer.

INDIANA'S LARGEST and MOST ACCOMMODATING HOUSE FURNISHERS.

Indiana Furniture Co.

166 Calhoun Street.

A SENSATION,

Yes, a Delightful One

It is to glide over a lawn noiselessly with a mower and wait in vain to become tired, yet this delightful sensation accompanies the purchase of every F. & N. Lawn Mower.

HAVE YOU SEEN THE "F & N" MOWER?

There's a touch of attractiveness in the simplicity and gracefulness of its construction; but we add another and more taking attraction—low prices.

Call and examine the F. & N. Mower and form your opinion of its value, then get "our" price and our delivery wagons will do the rest.

NEWS NOTES.

Judge Jesse Niblack, of Decatur, was at the Randall last evening.

Prosecuting Attorney Colerick is greatly improved in health since his sojourn at Rome City.

Jacob E. Plank, of the corner of Taylor and Pine streets, is recovering from an attack of typhoid fever.

The Lincoln Tea company has moved into new and more commodious quarters on West Wayne street.

The Woman's Missionary society of Westminster church will not hold a meeting this week on account of the semi-centennial celebration.

Died, at Decatur, Ind., Mrs. Daniel Sprang, a sister of Al. Owen, Wallace and William Lichtenwalter, of this city. Funeral will be held at Decatur Saturday.

Geo. A. Henry, of 244 East Creighton avenue, leaves for Canton, Ohio, today to take a position with C. M. Henry & Son, the leading boot and shoe dealers of that place.

The business men's division of the Triangle Cycling club will make a run tomorrow afternoon, starting from the club rooms at 5 o'clock. The distance, including the return, is to be limited to ten miles.

This evening at the Baptist church the young people of the L. L. A. society will give an entertainment. The cause is a worthy one, the purpose of the society being to promote patriotism among the young men of America.

The Triangle club will make their run to New Haven Friday night, leaving the association at 7 o'clock. Arrangements are going to be made to serve refreshments at New Haven if possible. All wheelmen are invited to go on this run.

LeRoy Hatzler will this evening read a paper on "Reincarnation and proofs of our past and future existences" and that it is the only reasonable answer to the difference that exists between the human family before the Theosophical society.

The Zollinger Battery held a meeting in their armory last evening and mustered in several new members. They also decided to contest for the prize at the international drill at St. Louis in July. A lawn social will soon be given to help defray expenses of the trip.

City Attorney Ninde stated to a SENTINEL representative this morning that he would begin to take steps towards the opening of Fifth street, Bloomingdale, into the northside park. The people in Bloomingdale have for years been lawing with the Lake Shore road trying to get an entrance into the park for Fourth street, but have failed. The new move upon the part of the residents of Fifth street will be watched with interest, and the fight promises to be an interesting one.

Mrs. M. A. Crosby, well known to many in Fort Wayne, now of Brooklyn, N. Y., has just returned from conducting a party through Egypt, 600 miles up the Nile, through the Holy Land and Turkey, over the Black sea, across Russia and Austria, around through Italy France and England, a trip of nearly four months and traveling more than 25,000 miles. She is now at work making up a summer party for Europe, sailing from New York July 6. For particulars she can be addressed at 785 Putnam avenue, Brooklyn, N. Y. The best of accommodations can still be secured.

The semi-centennial exercises of Westminster church will open with a grand reception on Saturday evening, commencing at 7. Reineke's orchestra will furnish the music, with a few other selections. The invitations to this reception are necessarily limited to the adult members, i. e., all except young children, of the several Presbyterian churches of the city and such other persons as receive an invitation from members of the Westminster church. Refreshments will be served to several hundred guests. All persons are invited to the Sabbath services, consisting of a sermon in the morning by Dr. Willis G. Craig, of McCormick Theological seminary, and a historical memorial service in the evening.

RUNAWAY ACCIDENT.

S. M. Foster and Wife Thrown From Their Carriage.

Both Are Severely Shaken Up and Mr. Foster Was Dragged Thirty Feet—Other Casualties.

Last evening, just at dusk, as Mr. and Mrs. S. M. Foster were returning to this city along the St. Joe road from Mr. Foster's farm, and about a mile on the other side of the first toll gate, while driving along quite rapidly, their horses took fright, and started to run.

The animals drew the carriage very close to the edge of a deep ditch, and the carriage wheel, striking a stone, tilted the vehicle to one side. In the back seat of the carriage were little Lottie Gerhman and Mr. and Mrs. Foster's little daughter. When the carriage tilted partially over Mr. Foster was thrown out into the ditch, striking on his head and shoulders. His wife was also thrown out. The husband, however, held onto the lines and was dragged along for a distance of about thirty feet. He finally succeeded in stopping the animals but not until he had been considerably cut and bruised. Mrs. Foster was not badly hurt, although she was considerably frightened and bruised.

A bicycle rider who was fortunately passing jumped off his wheel and held the animals until Mr. and Mrs. Foster regained their feet and got back into the carriage. The little girls were unhurt, but badly frightened. Had the team broken away from Mr. Foster the consequences might have been fearful, as the horses were thoroughly frightened and there is no telling where they would have brought up.

SERIOUSLY HURT.

Chris Hagerfeld, clerk at Fehling's grocery, corner of Broadway and Taylor streets, while engaged in putting up an awning yesterday, fell from a box and tore the ligaments of the right arm from their fastenings. The injury is a very serious one and the man will be laid up for some time.

A reckless bicyclist on East Wayne street ran against and knocked Miss Louis Tower down a few days ago, her head striking the pavement and being painfully bruised. The wheelman had not manhood enough to apologize, but hastened on to avoid identification, apparently.

The auction sale of books at 109 Calhoun street, is drawing the best people of Fort Wayne. Remember that the great slaughter will continue for a few days only. This is a chance of a lifetime to fill up your libraries with the best of standard works at infinitesimally low prices. Auction afternoon and evening. Come in and look the books over.

NOTICE.

All parties holding accounts against Fair Committee of Rifles and Blues, will oblige them by sending same to undersigned not later than Friday, May 3d.

J. B. TONNER, Treas.

Doctor J. B. Casebeer, of Indianapolis, a reputed specialist, has consented to visit Fort Wayne Monday, May 6. Will stop at the Randall hotel, where he would be glad to meet those who are suffering with ruptures and explain to them the new, sure and almost painless cure, without the use of the knife. Consultation free. No pay until cured. Patients continue their usual business. Call and consult him. 2 3t

Aurora vs. Fort Wayne tomorrow. Second game of Championship season.

THE PACE THAT KILLS.

Edward Drouin of Atlantic City Is the Latest "Coal Oil Johnny."

Edward Drouin, the wealthy and eccentric former vice president of the Philadelphia Grain Exchange, now a resident of Atlantic City, recently purchased the Hartford Inn, a noted pleasure resort in Chelsea, subject to a lease. The tenants refused to vacate, which so exasperated Mr. Drouin that he went there with his valet and broke all the windows on the ground floor. He paid

EDWARD DROUIN.

for the damage later. A few days afterward he purchased the famous old Inlet roadhouse.

Among his more recent purchases were a rubber tire roadcart and a white trick pony, to which he has given the name of "Parcsis." In this cart he daily dashes up and down Atlantic avenue during the busiest hours of the day, dressed in the height of fashion and standing upright in the cart.

Immediately after one of these exhibitions he will walk up and down the entire length of the avenue, apparently oblivious of the presence of passersby, yet enjoying the comments his appearance provokes. The other day he purchased a racing bicycle, and one Sunday rode to Pleasantville and back, a distance of ten miles, in 24 minutes, beating the best record of the local cracks.—New York World.

How It Affects One Man.

Here is the way the income tax decision affects one rich man: Income from real estate, $75,000; income from government bonds, $22,500; income from city bonds, $12,000; income from other sources, $5,000. He received a total income of $115,000 during 1894, and under the law as it stood would pay a tax of over $2,400. As the law is left by the supreme court he will have to pay a tax on only $1,600, or $32.—Boston Herald.

Rescued From Torment.

Every Joint in His Body Racked by Rheumatism.

Could Not Move His Arm and Was in Constant Pain—A True Story of a Remarkable Cure.

William F. Maier, 18 Park place, Zanesville, Ohio, writes: "About a year ago I had to quit work on account of rheumatism. I had the disease in my hips, back and arms, in fact, in every joint in my body. The pain was intense, and I suffered the most excruciating agony. My doctor could not do anything for me, and I tried every remedy that could be suggested. None of them did me any good, and finally my joints became stiffened and sore. At times I could not move my right arm and was in constant pain. I procured a bottle of Munyon's Rheumatism Cure and within a short while was completely cured. I am free from stiffness and pain and can cheerfully recommend Munyon's Remedy as the best I have ever known."

Munyon's Rheumatism Cure acts almost instantaneously, curing many obstinate cases in a few hours. It is guaranteed to cure rheumatism in any part of the body. Acute or muscular rheumatism is cured in from one to five days. It never fails to cure sharp, shooting pains in the arms, legs, sides, back or breast, or soreness in any part of the body in from one to three hours. It is guaranteed to promptly cure lameness, stiff and swollen joints, stiff back and all pains in the hips and loins. Chronic rheumatism, sciatica, lumbago or pain in the back are speedily cured.

Munyon's Homeopathic Home Remedy Company, of Philadelphia, put up specifics for nearly every disease, which are sold by all druggists, mostly for 25 cents a bottle.

$100,000

Artificial Ice.

Made from Distilled Water, Whereby it is Perfectly Purified and Freed from all Organic or Inorganic Matter of Whatever Nature.

The Artificial Ice Company have their own artesian well water placed in several cans, which are surrounded by coils of iron pipe, the latter containing chemicals under pressure, which by evaporation extract all the heat from the water in the cans, thus transforming into cakes of pure crystal ice, which is far superior, from a sanitary point of view, to any ice harvested from lakes or streams anywhere. Ice produced in this manner is the only ice which may be used for drinking purposes without more or less danger of injury to the system, and this company's ice is endorsed and recommended by physicians as pure and wholesome. It is used by families, hotels, restaurants, druggists (for compounding prescriptions), and others with the greatest satisfaction to all, and large quantities of the water is sold in one gallon bottles for drinking purposes.

Books containing One Hundred 5-Cent Coupons are sold for $4.50, and one book will last an ordinary family one hundred days. This is the cheapest and most satisfactory way of procuring the family supply of ice for the summer.

BICYCLES!

YOUR presence is requested at the informal reception tendered by—

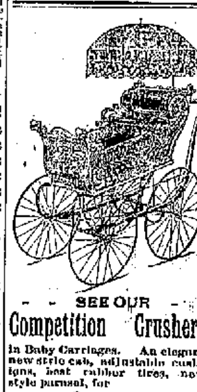

MISS-HALLADAY-TEMPLE SCORCHER

To be held in our establishment during the coming month. Her SUPERB FORM is a composition of beautifully outlined curves of which Mme. Yale would be justly proud. With her NARROW TREAD her weight does not exceed 22 pounds. She challenges the world for Strength, Rigidness of Frame and Steadiness. She manifests EASE OF CONTROL while riding. Her enameled face of a deep Maroon color, elegant trimmings and lustre of finish are beyond comparison. She is protected by the latest improved Gen. Griswold rubber mud and dress guard. Her PATENTED CRANK ATTACHMENTS, DUST PROOF Bearings and Chain Attachments will be shown you and their use explained. She will receive you in any of the POPULAR TIRES with a double guarantee.

Respectfully yours,

MORGAN & BEACH.
